	CITY OF RIVIERA BEACH	1	MR. GAGNON: Stephen Hunt.
	PLANNING AND ZONING BOARD	2	MR. HUNT: Here.
		3	MR. GAGNON: William Wyly.
		4	(No response.)
		5	MR. GAGNON: Evelyn Clark.
		6	MS. CLARK: Present.
		7	MR. GAGNON: Moeti Ncube.
		8	MR. NCUBE: Here.
	Thursday, July 25, 2019	9	VICE CHAIR GUSTAFSON: Item number III,
	Council Chambers	10	acknowledgment of Board member absentees.
	600 West Blue Heron Boulevard	11	MR. GAGNON: Thank you, Chair.
	Riviera Beach, Florida 6:35 p.m 8:40 p.m.	12	Being that we have two full-time Board
	old pilli or o pilli	13	members absent and Ms. Burgess and Ms. Shepherd both
		14	notified staff of the absence, I would ask that both
		15	alternate members receive voting rights tonight. The
		16	only action item we have is the approval of our
	IN ATTENDANCE:	17	previous meeting minutes from May 23rd, if that pleases
	Jon Gustafson, Vice Chair	18	the Board.
	Anthony Brown, Board Member	19	VICE CHAIR GUSTAFSON: Very well. Thank you.
	James Gallon, Board Member	20	Item number IV, additions and deletions to
	Stephen Hunt, Board Member Evelyn Harris Clark, First Alternate	21	the agenda.
	Moeti Ncube, Second Alternate	22	MR. GAGNON: There are no additions or
	Jeff Gagnon, Acting Director of	23	deletions at this time. I will mention that there are
	Development Services Lina F. Busby, Assistant City Attorney	24	multiple handouts, in addition to the agenda and
	Ema 1. Busby, Assistant City Automory	25	meeting minutes from our previous meeting, available in

4	MR. GALLON: Yes.	4	Board member, and maybe throw something fun like a
5	MR. GAGNON: Chair Gustafson.	5	hobby or something like that in the mix as well.
6	VICE CHAIR GUSTAFSON: Yes.	6	VICE CHAIR GUSTAFSON: Okay, icebreakers.
7	MR. GAGNON: Unanimous approval.	7	Jon Gustafson. I'm an eight year resident of
8	VICE CHAIR GUSTAFSON: Item VII, unfinished	8	Rivera Beach. I live over on Singer Island. And I am
9	business, there is none. So we'll move to VIII. There	9	a mechanical engineer, as well as a yacht designer. I
10	is no new business. So we'll move on to IX, workshop	10	have an interest in planning and zoning and making our
11	items, Planning and Zoning Board member training and	11	community better every day and seeing where we can take
12	onboarding.	12	the city to make it better.
13	MR. GAGNON: Yes, thank you, Chair.	13	I have a young son right now and another baby
14	So tonight is a special meeting for the	14	on the way, so for the next meeting coming up, I may be
15	Planning and Zoning Board. We have multiple newly	15	here or not, so we'll see what happens. But my hobbies
16	nominated Board members present with us. Of the four	16	are anything related to the water. And I spend a lot
17	new Board members, we have three currently present.	17	of time on boats and fishing and so forth, so I'm
18	Mr. Wyly was unfortunately unavailable to make it, but	18	pretty familiar with the beaches and the lagoons.
19	we want to welcome all four of the new Board members to	19	Thank you.
20	the Board.	20	Mr. Gagnon.
21	Everyone's clapping now, but I don't know.	21	MR. GAGNON: We'll let the Chairperson pick
22	MR. HUNT: A brief moment.	22	the next victim here.
23	MR. GAGNON: Right. Enjoy it while it lasts.	23	VICE CHAIR GUSTAFSON: Mr. Brown.
24	No, tonight should be a rather informative	24	MR. BROWN: I'm Anthony Brown. I've been a
25	meeting for the new members, as well as a refresher	25	resident of Rivera Beach for, I'd say, 20 years on and

And I guess by me harassing the City Council and Mr. Gagnon, I got appointed to be on this Board, which I have found very interesting. I've learned a lot, and I'm quite sure there's a lot more to learn.  So glad to be here.  VICE CHAIR GUSTAFSON: Thank you.  Mr. Ncube. If I said it  MR. NCUBE: Oh, the "c" is silent, so it's  Moeti and then Ncube.  VICE CHAIR GUSTAFSON: Ncube.  MR. NCUBE: Yes.  VICE CHAIR GUSTAFSON: Mr. Ncube, thank you.

7/25/2019

I work at Nextera Energy. I'm an energy trader. I enjoy traveling, I'm definitely an international traveler, and I also enjoy quad skating, so I go to the roller rinks still, and spear fishing.

I think this would be a great opportunity to learn a little bit more about how government works. I guess I'm kind of a newcomer to understanding how the political process works really behind the scenes, so I think this is a nice place to get my feet wet and see what it is. That's about it. Glad to be here.

VICE CHAIR GUSTAFSON: Thank you. Ms. Clark.

MS. CLARK: Yes, good evening, everyone. Evelyn Clark. I'm a five year resident here of Riviera Beach. I'm married to Dennis Clark, and hopefully he's tuned in. Hi, Honey.

And my vision here is to promote the vision of the Planning and Zoning Department here and really make our city the best in class, make us very exceptional here on the Treasure Coast. And lastly, I too enjoy water, and it's nice to have Board members with boats.

VICE CHAIR GUSTAFSON: Thank you.

2.4 Mr. Hunt.

MR. HUNT: I'm an eight month resident of

And once again, thank you to all the new members, and welcome aboard. We're glad to have new faces and new ideas.

MR. GAGNON: So I'd first like to introduce Mr. Scott Evans. He's our Executive CRA Director. He has a brief presentation, and possibly a video as well for the Board.

So Scott.

MR. EVANS: Good evening, Board. Thank you for having me. I am -- I've worked for the City of Riviera Beach for about 18 years now, and I started out with the Planning Department here at the City. And then about seven years into that, I went to work for the Redevelopment Agency.

And I'd like just a few minutes of your time tonight just to go over some of the projects we're working on. I won't take too much of your time. I know you have lots to get through, but I promise to come back and talk about anything that you're interested in in more detail, if so invited.

The Community Redevelopment area has very specific boundaries by statute. The way it works is all of our -- all of the dollars that we collect -- and by we, the Community Redevelopment Agency. We're able to collect dollars from the County as well as the City,

23

24

25

starting from the date of when the redevelopment area was established. And in this case, formally it was in

And so all of the dollars are to be reinvested in redevelopment within the boundary area only. And as you can see, as it's shown on this map above, that extends from basically along the Broadway corridor, which is right down the middle of that, right there, from about Silver Beach Road down to the south side of the Port.

We include a portion of the Rivera Beach Inlet City neighborhood, which is between 10th Street and 6th Street, and then part of the Park Manor neighborhood, which is on the west side of U.S. 1, and then a narrow band that goes over to Singer Island, which is basically one property deep on either side of the road and includes the Ritz Carlton property and the City's Ocean Walk and Beach Park.

Why redevelop? Well, we have a number of things that we're trying to achieve. Primarily, the State statute lists remove slum and blight and to increase the tax base of the City. We are also trying to create clean and safe places, encourage economic development, build or enhance affordable housing.

We fund streetscape projects, sidewalks,

Rivera Beach, but I've concluded that this is where I want to spend the rest of my life, so I'm delighted to be able to help. I have a passion for getting things done.

I'm a 20 year Air Force veteran and was lucky enough to be involved in the integration of Command Control communications, computer systems and other elements of infrastructure, technology that didn't talk to each other, and survived that experience and made some real inroads on that. Also spent 40 years as a Chief Information Officer, so IT is my affection and my

As far as the Board is concerned, I'm very interested in the planning side of things, not just the approval of building permits and zoning adjustments. So I'm looking forward to helping the Board, if I can, to tackle how could we do a better job of time initiatives together, and as we used to say in the Air Force, deconflicting plans so that we don't step over each other accidentally or on purpose.

My passion is baseball, and I'm a Washington Nationals fan, so if you see me with the "W" logo, there's no discounts at Walgreens, it's the baseball. Thank you.

VICE CHAIR GUSTAFSON: Thank you very much.

3 (Pages 9 to 12)

#### Page 13

capital improvements. We seek to retain, recruit and develop local business. We can enhance parks, create parks, create recreation. And again, I'll mention it again because it's the primary goal, which is to increase the tax base of the City.

Why do CRAs ultimately exist? Fundamentally, investors receive an inadequate return on investment, ROI, which results in a lack of new development investment in communities. And this lack tends to spread and results in deteriorating properties and even less upkeep of the existing properties. Additionally, the lenders perceive that's an unacceptable level of risk to then invest in that area.

So CRAs were created to try and adjust that imbalance between the cost and revenues, to try to promote development, reduce the risk levels for investment. And we do that by creating grants and incentives, trying to work to enhance the development approval process and actively partnering with potential future developers to try and bring development to the area. And the Broadway corridor is a very good example of an area that has experienced reduced investment over the years, and we're trying very actively to try and change that.

Some of our upcoming projects, we're

#### Page 15

I encourage this Board -- eventually all of those redevelopment plan amendments will come before you for your review for compliance with the Comprehensive Plan. But I encourage you to come out and participate in all of our workshops. We're going to hold multiple public workshops. We are working with Treasure Coast Regional Planning Council, will be helping us. They are the original drafters of our existing plan.

So those will be starting in September, and we'll make sure to notify you and try and get as many people as possible to come out to those workshops. We'll do some design charrettes and really talk through some neat potential new activities, construction plans that we might bring to the area.

Right now we're actively working on some redevelopment projects in the Broadway corridor, in some of our neighborhoods and on Singer Island. Some ones that are coming right immediately, we're building a new landmark fountain. This is on the corner of Broadway and Blue Heron. Right now we've put in the landscaping.

You can see we've got an active mural program. We put in eight different murals all around the CRA, which have been really well received. And

# Page 14

currently involved in burying all of the overhead utilities along the Broadway corridor. This includes Comcast, there's some company called Level Three, U.S. Fiber, and then there's AT&T, and then finally the last one would be FP&L.

And by burying all those utilities under the ground, then we'll be able to remove all of the overhead lines and the poles and replace them with some pedestrian lighting to enhance safety and really create a beautified roadway without all those wires and poles, and replace it with some decorative streetlights, which Florida Department of Transportation has agreed to do as soon as those poles get removed.

Our primary task that we just -- we just got it approved last night, and I'm excited to say it's we're creating an update to our CRA plan. And that will be a process. The last time we updated was 2011, and that was based on public workshops that we did in 2010.

So it's been almost ten years since we updated the plan. And we have a new City Manager, a brand new City Council who also sits as our CRA Board, so I think the time is really good to adopt a new vision, create a new ten year work plan and really aggressively move the city forward.

Page 16

this is what the new fountain will look like. And it's actually out for construction bid right now. And right now it's currently a sign, and the landscaping is already installed, but we're going to replace the temporary sign with this Rivera Beach sign.

And this is actually a wall of water that would run down the front of the sign right here, and then with some fountains in front. And it's really -- it's designed to really just establish a new vision, a new -- that it's a new type of development that we want to bring to Broadway. And this is an aerial view up above that you can see.

All right, just go back. Below -- this shows right across the corner, the CRA has purchased this property. This was formerly the bank building. A couple of different banks were in there, Bank Atlantic and then BB&T, and then it was vacant for over five years. And so we have purchased this property towards redeveloping it, and we plan to put a new facade on it.

And this is just one concept for it. And some of the feedback we've gotten in some of our concepts so far is to sort of -- if that building was built in 1950, it's actually designed based on the -- very close to what our new zoning regulations are, which says -- which wants to put buildings really close

4 (Pages 13 to 16)

#### Page 17

to the street, put parking underneath or behind the properties.

So we want to expand the sidewalks in front of the building and bring some new uses, including a possible cafe and some new office type uses, including a small space for our CRA office located here. So we're going to be moving forward with these concepts, hopefully bringing them to the CRA Board in September. Our architects are already working on it, and we're very excited to turn this building from a vacant property into a new really, really nice commercial building that represents what we would like to get built all along the Broadway corridor.

MR. HUNT: Scott, before you go on, can I ask a question?

MR. HUNT: Scott, what's going into there, your vision for going into the former pawn shop right next to the fountain? Is that going to stay?

VICE CHAIR GUSTAFSON: Absolutely, Mr. Hunt.

MR. EVANS: Yes. So the pawn shop is -- we own that property too, and currently we have a lease with them through 2023, or close, somewhere between 2023 and 2024. When that lease is up, we intend to demolish the building and put that out for

redevelopment also. It's just a one story structure.

Page 19

we completed a 10th Street garden in Riviera Beach Heights.

And going forward, the Neighborhood Services Group, their main goal is to provide affordable housing, which we purpose to do 25 new units in the coming year. Our activities include acquisition of vacant lots and for rehabilitation.

We have our Smart Home Program that we're introducing. And this is a toolkit of improvements to homeowners that includes motion lights, house numbers that are uniform throughout the neighborhood, and we're even looking at bringing the new technology of the Ring service to homeowners who qualify, trying to improve the safety and security of their homes in our neighborhoods.

We also have our Single Family Housing Beautification Program. This provides up to \$20,000 of a grant to any homeowner who lives within the CRA, and they can use that for landscape improvements, new windows, roof repairs, painting their homes and general fixing up of their property.

Our House by House Program has been really -has really gotten a lot of good feedback, and it's primarily done by volunteers within the community. And we paint houses throughout our neighborhoods, in

# Page 18

We think that it's on our key intersection, so the pawn shop is not the ideal business from our redevelopment perspective, but they're a good tenant and they take care of the property and they have a lease, so we'll respect that. But we're looking to redevelop the site for a different type of use once that lease is up.

MR. HUNT: Thank you.

MR. EVANS: Our Neighborhood Services Group, we've adopted a new focus called Neighborhood RECLAIM. And that will be for our fiscal year 2019 and 2020, and RECLAIM standing for what we'd like to achieve in our neighborhoods: Revitalized, energy efficient, community oriented, livable and sustainable, attractive and desirable, innovative and maximized opportunity.

And all of our neighborhood programs are designed to try and meet a triple bottom line, which is financial improvement, social engagement and providing equity to our residents, our homeowners and within the community, so we try and approach redevelopment of our neighborhoods in a more holistic way.

We've invested in parks, trails and signs, and we continue to have that proposed for this coming year. We've built a linear park. We did sidewalks all throughout the Riviera Beach Heights neighborhood, and Page 20

partnership with a couple of different groups who take turns coming out and helping us. But that's a good program. We try to do that once a month, where we choose one, two, three houses. And then we usually meet at our Community Garden, and then we go out to the different houses and paint them and fix them up, sometimes with some landscaping also.

We're also expanding our Community Garden Program. We have the garden on 10th Street, and then we've been able to support creation of another garden at the Lindsey Davis Center through our CDC. The CRA also supports the CDC. We provide about \$300,000 per year in funding for there, and they provide a lot of the affordable housing programs on behalf of the CRA.

I will finish with the marina project, but because we're in an active RFP still for that, I won't take questions on that. But I'll take your questions now if you have anything you would like to know, and then I'll just summarize with a quick little video and summary of what's happening at Marina Village, which is our primary project right now that we're working on.

VICE CHAIR GUSTAFSON: Mr. Evans, I've got one question. The Community Garden is supposed to be on Blue Heron. What's the status on that?

MR. EVANS: So we have prepared the plans.

5 (Pages 17 to 20)

1 2

2.0

#### Page 21

There's been a Community Garden Committee has now been
 formed, and they have approved the concept plan for the
 garden. So now we're preparing those plans for
 submittal to the Department of Development Services, so
 this Board will see that plan for the garden very
 shortly.

And then as soon as it's approved by City Council, we'll be ready, looking to construct it. It's a temporary garden, so everything that's being built is designed to be moved if the garden changes its location. Right now it's going to be located on Blue Heron Boulevard at the corner of Lake Drive, just on Singer Island, on the other side of the bridge.

And we've leased that property for two years, and then it will go month to month, but we anticipate having that property for the next five years. So this Board will be reviewing our Community Garden, our latest Community Garden very shortly. So we'll be hoping to get your support for that.

MS. CLARK: Hi, Mr. Evans. I have a question. With the Community Garden, we have two already in the city of Riviera Beach. This one, new one is going to be on Singer Island, and it's on Blue Heron, which Blue Heron is one of the gateways into Rivera Beach.

#### Page 23

through the Garden Program.

MS. CLARK: Thank you.

MR. NCUBE: I have a question. So am I correct in getting at the bottom line is to increase the tax base from businesses or just collectively overall?

MR. EVANS: Collectively overall is our primary mission, is to increase the tax value of the city. We also have economic development, so we want to improve the values in our neighborhoods, of our businesses, and we also want to provide more jobs and economic opportunity for our residents.

MR. NCUBE: So are we tracking that, I guess, year over year as far as what metric are we using to determine if we are being successful?

MR. EVANS: Yes. Yes, we do track all of our progress. As far as providing affordable housing, that's a, you know, finite number that we try to achieve each year. We've invested over \$2.5 million now in improving the facade and property improvements within the CRA corridor within Avenue E and along Blue Heron.

And the key tracking item is actually done for us by the County because they very closely track property values on an annual basis, because that's how

#### Page 22

I'm sure maybe in a workshop we'll see the design of it, but is it going to be aesthetically different than what we have already in some of the other residential neighborhoods, because this is a gateway into Rivera Beach and Singer Island on Blue Heron.

MR. EVANS: Yes. The property owner who's leased it to us for \$1 a year, graciously, he eventually would like to build a development on that, but he doesn't see the timeframe for the new development happening for about five years. So by leasing the property, we're immediately able to clean it up a little bit.

And we're going to put the garden towards the back of the property, and then in front of the property we'll extend some palm trees and we'll have the garden actually install -- the gardeners, rather, install some shrubs and some attractive flowers.

So the goal would be -- will be really to beautify the corridor in that area and then have the actual, the formal garden part at the back of the property. So we think it serves two purposes. It provides a place on Singer Island for residents to go and be able to garden and have their own plot, and at the same time provides beautification for the corridor

Page 24

they, of course, collect taxes. So each year we have a specific, very finite measurement of how much the tax base has increased on a year by year basis.

MR. NCUBE: Okay.

MR. EVANS: The marina project, this is the phase one site plan, so this is what is now built on the marina. It includes our Event Center, our Bicentennial Park, our Children's Fountain and all the infrastructure that's designed to attract private development, which is part of the phase two marina project.

And a couple of the items that will be coming before you very shortly -- this is the area. This is Broadway. I'll just highlight it here. And then this is 13th Street coming into the marina. And the property which is on the south side of 13th Street in this area. This is -- has a mixed ownership, so the lots are all partly owned by the City, partly by owned by another company called Viking.

And what we have been able to do is the CRA Board has approved a property swap that would allow us to create these future development parcels. So rather than having a mix of different properties that can't really be developed, these, all of these properties we'll be able to trade with Viking so that we create

6 (Pages 21 to 24)

#### Page 25

these larger development parcels. And as a result of that, we'll be able to create the phase two of the marina project, which is we need these larger development pieces as shown on the phase one site plan.

And one of the items that's coming to you is the old 13th Street. It actually goes up and down between this parcel. And so we're proposing to abandon old 13th Street, since we built new 13th Street, and by abandoning it, then that will allow us to have these larger development blocks, which will help us chart the future. So one of the items you'll be seeing in the next couple of months is the abandonment of that roadway.

And there's actually a couple of utilities underneath that roadway, and how we treat that is we'll put an easement over those utilities to protect them, and then when those sites are redeveloped, they will likely move those utilities at that time. So I just wanted to bring that to your attention, that that's a project that's in the Marina Village that will be coming to you soon.

And I'm very pleased to say that the phase two marina project, we've got two proposers, and both of the proposers are now working on a plan to try and work together. And my perspective is that two is

#### Page 27

to the City of Riviera Beach.

And I have a short video. I brought a video for you, if you don't mind me playing it. The focus of the video is not to talk about so much one developer or another. It's to talk about the opportunity that exists at the marina, because it's the opportunity to create new jobs is significant.

And we're really looking forward to moving forward with the phase two, because it's really going to make a big impact on the community. And we think that by starting with development here at the marina, that we'll be able to also extend it across Broadway, to the west side of Broadway, and also north and south along Broadway. So I just have a short video if you --

MR. GALLON: Chair.

VICE CHAIR GUSTAFSON: Yes.

MR. GALLON: I notice that there's, like right now there's not enough parking in the marina area. How long will it be before you all decide where you're going to put the parking garage?

MR. EVANS: That decision would happen likely in the next six months.

MS. CLARK: Mr. Evans, a couple of questions. As you look at maximizing the available space, land is money. Parking lots don't generate a lot of money.

# Page 26

hopefully better than one, and I believe that they're having positive negotiations. So we're looking forward to bringing that forward very soon, to try and get started on negotiating the phase two Marina Village, which will include a hotel and some waterfront restaurants.

And we've already invested over \$27 million to create the infrastructure in the marina project. And that's the hotel sites, which are shown here as number four, as well as we'd like to redevelop some of the surface parking. We'd like to create a parking garage.

We think that having a surface parking lot right adjacent to the water is not the ideal use. We think that that would be the best place for a hotel and maybe some other more intense commercial development, and then create a parking garage farther away from the water. And that way, we would maximize the value of the City's property.

And all of this property will always belong to the City. That's by Charter. So we're just working on bringing a new development that will enhance the tax revenue, create rental revenue for the City, bring new jobs, but the land will always remain, the land east of Avenue C here will always remain public and belonging Page 28

Since I'm new here, I'm sure you've probably taken a look at trying to strike a balance between maximizing land which brings in taxes and jobs, et cetera, and where the parking lot would be. So not that you have to answer that now, but I'd like to learn a little bit more about that.

And the two developers are coming together, and they both had distinctive visions of what they presented to the City. And my question is: Are they collaborating together to extract the best out of each of their plans and make it cohesive and succinct as they finally bring it to the City?

MR. EVANS: Yes. The direction that the Board, CRA Board gave to the two developers was that they wanted them to not just say they're going to work together, but to come up with a unified plan that would incorporate, ideally, the best elements of both of their plans.

MS. CLARK: Okay, thanks.

MR. EVANS: Thank you for letting me speak today, and I'm just going to put on a short video.

(Video presented)

MR. EVANS: My name is Scott Evans. I've had the opportunity and privilege to serve the Riviera Beach community for over 18 years.

7 (Pages 25 to 28)

#### Page 29

Together we've experienced hard earned progress. Through it all, we've learned about our strengths, assets and incredible resilience. Our shared lessons are the rocket fuel to accelerate our trajectory as we navigate the path to change and achieve new opportunities and assets for our residents.

The Rivera Beach Community Redevelopment Agency is leading the way. Our mission is centered around lifting the local community and economy. With your help, the CRA is empowering us to soar to new heights with the Marina Village project.

Marina Village is far more than a real estate venture. The project symbolizes all that we desire to grow as a proudly diverse community whose history is rooted in the native Americans and Bahamians that first blessed the city's fertile land and shores. The settlers to follow, freed slaves and immigrants, built the city that was first called Riviera.

Today Riviera Beach is a special place where past meets present, urban meets nature and faces make places.

In that spirit, Dana Nottingham has been an adviser and influencer in helping the Board and I draft a development strategy that makes sense for this community. Dana is also the founder of the

Page 31

Marina Village is situated at the heart of the city's robust maritime industry, at the nexus of the Intracoastal Waterway and Atlantic Ocean. The harbor provides prime boat and truck access for industry icons like Florida Power & Light, the Port of Palm Beach, Viking Yachts, Lockheed Martin and Rybovich Mega Yachts.

As a lifestyle destination, the new Event Center, improved marina and Bicentennial Park are complemented by 15 boating, fishing, diving and water recreation operations. Each is situated across from the Peanut Island Eco Park and next to a cruise terminal. As you visit the Port and harbor today, you experience a Marina District and working wharf that is an economic hub representing approximately 1,000 workers and contractors and over 200,000 visitors.

Surrounding this economic zone, within a 20 minute drive is a local and regional market that includes approximately 1.5 million county residents, a half a million county workers and approximately 10 million tourists. Singer Island's oceanfront hotels have the highest occupancy levels in the county.

Research and industry feedback has validated the untapped potential that exists to develop the following at Marina Village: A hotel for business and

Page 30

Lead.Lift.Soar Leadership Development series and has partnered with the CRA to create a Marina Village destination, one that will create new avenues to opportunities and prosperity.

The CRA Board and management team look forward to working with you to accomplish the dreams that we share as a community. This is our moment to transform the Marina District, jump start revitalization along the U.S. 1/Broadway corridor and expand the local economy. Change is an opportunity if we work together. The future is now.

MR. NOTTINGHAM: Marina Village represents our moment in time to seize the urban opportunity and create a regional crossroads and gateway destination, as well as an employment of an innovation center that will catalyze broader revitalization. The goal is to create a place that is regionally appealing and locally relevant.

Imagine taking a helicopter ride over Palm Beach County and Riviera Beach. It reveals dramatic views of Singer Island, the Port and marina and mainland neighborhoods that are ripe for revitalization. Beyond the city limits you see Palm Beach County, one of the most affluent areas in south Florida Page 32

tourist business, a mixed and critical mass of restaurants and entertainment, new mixed income home ownership and rental housing.

The time is right during this economic upturn to advance the development of the mixed use hotel destination that complements the Event Center, Bicentennial Park, the expanded marina and the adjacent cruise terminal.

Recent master developer proposals are helping the CRA quantify the opportunity of acting, as well as the opportunity cost of delaying in action. A full build-out of the site is estimated to cost over \$100 million, which is projected to generate the following community benefits: Over 600 construction jobs, approximately 300 permanent jobs, and more than \$1 million in cash revenue annually.

Given our progress over the last three years, the runway is now clear. At this critical crossroads, we must ask ourselves: Is Riviera Beach ready to lead, lift, soar? Are we ready to position the city for a brighter future that's transformative, sustainable and equitable?

(End of video)

MR. EVANS: Thank you.MR. HUNT: Thank you.

VICE CHAIR GUSTAFSON: Any other questions for Mr. Evans?

Mr. Evans, thank you very much, and thank you for everything you do with the CRA.

MR. EVANS: Thank you.

VICE CHAIR GUSTAFSON: Mr. Gagnon.

MR. GAGNON: Thank you, Chair.

Yes, thank you, Scott, for the presentation. I think that was definitely very informative. First time I've seen that video. I think it looks great, so congratulations.

So next up on the list is myself. It's much more boring than what Scott just presented, unfortunately. I feel like I should have went first. And you know, it's like a comic act and I have to go after that.

But what I do want to discuss is corresponding to the handout that is labeled Parliamentary Procedure, and this is in regards to Robert's Rules of Order. I'm not going to dig into all the elements contained within the handout. There are some components that the Planning and Zoning Board really doesn't get into. The handout's really designed for, you know, a very general overview of that process

which could be used by a variety of different boards,

Page 35

you've ever worked in a leadership group and have done what I'll call a baton exercise where whoever has the baton has the floor, has the ability to speak. At the Planning and Zoning Board meeting, the Chairperson always has the baton. And each other Board member requests the baton from the Chairperson by asking the Chair the opportunity to speak on any item.

Tonight this is very informal, so we're not really too concerned about that, but that's typically the process. So that way, if there are multiple Board members that are seeking the baton simultaneously, the Chairperson has to make the difficult decision of where to pass the baton next. So again, what that does is allow everyone to share their feelings on the topic, it provides equal opportunity for discussion and input on any given item, so that's a very important note to just keep in the back of your mind.

Let's see, I think at this point it would be interesting to go into what I'll call a build an ice cream sundae exercise. So what I'm tasking the Board with is building an ice cream sundae. So that will consist of choosing a type of ice cream perhaps, maybe toppings. But in order to build the ice cream sundae, someone's going to have to make a motion, and there'll have to be votes on the type of ice cream, toppings,

Page 34

whether it's a community action board or a private company board, something along those lines.

So I really wanted to touch upon the high points, and I also wanted to provide the Board with an exercise at the end to kind of inform the Board of the voting process and also allow new Board members to get their feet wet as far as making motions.

So as we learned at the beginning of our meeting tonight, we have a nine member Board. We have two alternates and seven permanent Board members. If we do have vacancies in our permanent seats, the alternate members are given voting rights. That's established at the beginning of our Board.

And you may have noticed all of our conversations are taken verbatim; we have a court reporter present. Additionally, the meetings are recorded, so it's stated for the record.

And when we do make motions, we have adopted a roll call vote process. Some boards will say aye or nay. There's various methods of moving forward with a motion and voting, however, the Planning and Zoning Board has historically used a roll call method, being that it's very clear and concise as far as the intent of each Board member.

I guess a comparison I could make is if

Page 36

et cetera. So at this point I will pass the baton back to the Chairperson.

I do want to make one other note. Being the Chairperson, it does come with privileges, but it comes with some hardships as well, because the Chairperson cannot make the motion unless they pass the gavel. That rarely happens. If the gavel is passed to what is typically the Vice Chair, the Vice Chair does not have to give the gavel back. So typically the Chairperson holds onto the gavel unless there's some extreme circumstance or conflict.

But the motion has to come from the other Board members, and the Chairperson has the privilege of the final vote on an item. So in case we had a three/three vote tonight, being that we have six Board members present, they have the opportunity to be a deciding vote, potentially.

So I'll pass the baton to the Chairperson and open up the floor for the build an ice cream sundae exercise.

MR. HUNT: Mr. Chairman.

VICE CHAIR GUSTAFSON: Mr. Hunt.

MR. HUNT: I propose we start with chocolate and vanilla ice cream, one scoop each.

VICE CHAIR GUSTAFSON: Do I have a motion?

9 (Pages 33 to 36)

		1	
	Page 37		Page 39
1	MS. CLARK: Second.	1	VICE CHAIR GUSTAFSON: Very well. Mr. Hunt.
2	MR. GAGNON: So we have the motion on the	2	MR. HUNT: I amend the motion to accommodate
3	floor, and the Chair would ask for the second.	3	the desires of the other member.
4	MR. HUNT: I second.	4	VICE CHAIR GUSTAFSON: Which would be vanilla
5	MR. GAGNON: Let me take a step back. So to	5	and
6	recap, Mr. Hunt asked for the floor from the	6	MR. HUNT: And strawberry.
7	Chairperson, then Mr. Hunt made the motion for both	7	VICE CHAIR GUSTAFSON: and strawberry.
8	vanilla and chocolate ice cream.	8	MR. GAGNON: And then we would ask for a
9	MR. HUNT: Made the proposal.	9	second.
10	VICE CHAIR GUSTAFSON: Was that it was a	10	VICE CHAIR GUSTAFSON: Do I have a second?
11	proposal.	11	MR. GALLON: So moved.
12	MR. GAGNON: Just a proposal. I'm sorry, I	12	VICE CHAIR GUSTAFSON: Roll call.
13	misunderstood then.	13	MR. GAGNON: Mr. Ncube.
14	VICE CHAIR GUSTAFSON: Right, and then I was	14	MR. NCUBE: Yes.
15	going to ask then I was asking for a motion for it,	15	MR. GAGNON: Ms. Clark.
16	but then we got a second. So let's start that over.	16	MS. CLARK: No.
17	Mr. Hunt, you made a proposal. Do you want	17	MR. GAGNON: Mr. Hunt.
18	to just restate that quickly?	18	MR. HUNT: Yes.
19	MR. HUNT: I propose that we use one scoop of	19	MR. GAGNON: Mr. Gallon.
20	chocolate and one scoop of vanilla for the sundae, and	20	MR. GALLON: Yes.
21	I make that motion.	21	MR. GAGNON: Mr. Brown.
22	MR. GALLON: So moved.	22	MR. BROWN: Yes.
23	VICE CHAIR GUSTAFSON: Okay, so we have a	23	MR. GAGNON: Mr. Gustafson.
24	motion from Mr. Hunt and a second by Mr. Gallon. Roll	24	VICE CHAIR GUSTAFSON: No.
25	call.	25	MR. GAGNON: So that motion passes, with
	Page 38		Page 40
1	MR. GAGNON: Okay, so I'll proceed with the	1	Ms. Clark and Mr. Gustafson dissenting. So perhaps
2	roll call vote. Mr. Ncube.	2	we'll do one more exercise. Maybe there's toppings
3	MR. BROWN: Mr. Chairman.	3	that could be added, and maybe open the floor,
4	VICE CHAIR GUSTAFSON: Yes.	4	Mr. Chairperson, for potential toppings.
5	MR. BROWN: I'm allergic to chocolate, so I	5	VICE CHAIR GUSTAFSON: The floor is open.
6	propose we use something else. Vanilla and strawberry?	6	MS. CLARK: Would I ask my Board member to
7	VICE CHAIR GUSTAFSON: Mr. Brown, there was a	7	amend, because I would like to see vanilla, strawberry
8	motion and there was also a second. And I understand	8	and chocolate, and with the to make the suggest
9	that you are concerned about your allergics	9	toppings as well as the shell so we can build a really
10	MR. BROWN: Yes, sir.	10	good ice cream.
11	VICE CHAIR GUSTAFSON: but we can go	11	MR. GAGNON: I would suggest so we're
12	through a vote and then see what happens.	12	working now with a motion that's been approved. We
13	MR. GAGNON: The other option the Board has	13	have information and we know that one Board member has
14	is there's always the option of having a Board member	14	an allergy to chocolate, so perhaps your motion could
15	request the maker of the motion to amend the motion.	15	include a cup of chocolate ice cream on the side to be
16	So Mr. Brown has the opportunity to ask Mr. Hunt,	16	added, and in addition to toppings?
17	because of the allergy, that perhaps Mr. Hunt would be	17	MR. HUNT: I think you have to ask for the
18	willing to amend the original motion, and that's a	18	baton though first, right?
19	question he can pose to the motion maker.	19	MS. CLARK: Okay. Am I asking my colleague
20	VICE CHAIR GUSTAFSON: Mr. Brown, would you	20	to make that change to his or am I suggesting a new
21	like to amend the motion or would you like to go	21	motion?
22	through the voting process?	22	MR. GAGNON: Well, what happened during our
23	MR. BROWN: Yes, I would ask Mr. Hunt if he	23	last roll call vote was that was the Board's decision,
24 25	would amend the motion to include strawberry and	24	to move forward with both vanilla and strawberry ice
	vanilla.	25	cream. So if your desire is to have all three, perhaps

10 (Pages 37 to 40)

1	Page 41		Page 43
	that could be accomplished by having maybe the	1	Mr. Gustafson voted no. So that motion is approved.
2	chocolate ice cream on the side because there's food	2	So we now have our completed ice cream sundae with
3	allergy, and then additional toppings per your request.	3	three types of ice cream flavor, and I guess we haven't
4	VICE CHAIR GUSTAFSON: If I may, once the	4	gotten into the toppings, but perhaps maybe one more
5	vanilla and strawberry went through, we went through	5	round of toppings, if anyone else wants to make another
6	roll call.	6	motion to have additional
7	MS. CLARK: Right.	7	VICE CHAIR GUSTAFSON: The floor is open for
8	VICE CHAIR GUSTAFSON: And then you would be	8	a motion.
9	asking for an addition to that. So you can ask that at	9	MR. GALLON: Chair.
10	a later time or make a later motion for a side.	10	VICE CHAIR GUSTAFSON: Mr. Gallon.
11	MR. HUNT: But she has to ask for	11	MR. GALLON: I would like to add maybe some
12	VICE CHAIR GUSTAFSON: You would have to	12	nuts and some type of cream, whipped cream as a
13	ask	13	topping.
14	MR. HUNT: For permission from the Chair	14	VICE CHAIR GUSTAFSON: Very well. Do I have
15	VICE CHAIR GUSTAFSON: That's right.	15	a second?
16	MR. HUNT: to make another motion.	16	MS. CLARK: Second.
17	MS. CLARK: Okay.	17	VICE CHAIR GUSTAFSON: Roll call.
18	VICE CHAIR GUSTAFSON: So you would address	18	MR. GAGNON: Mr. Ncube.
19	me as the Chair, and then I would allow you to speak.	19	MR. NCUBE: No.
20	MS. CLARK: Yes, you have the baton, okay.	20	MR. GAGNON: Ms. Clark.
21	Mr. Chair, I would like to ask the Board to	21	MS. CLARK: No.
22	VICE CHAIR GUSTAFSON: No, you just ask me a	22	MR. GAGNON: Mr. Hunt.
23	question.	23	MR. HUNT: No.
24	MS. CLARK: I would like the Board to	24	MR. GAGNON: Mr. Gallon.
25	consider adding chocolate, perhaps on the side to	25	MR. GALLON: Yes.
	consider adding enocolate, perhaps on the side to		MR. GILLON. 165.
	Page 42		Page 44
1	complement the strawberry and the vanilla.	1	MR. GAGNON: Mr. Brown.
2	VICE CHAIR GUSTAFSON: Okay, so do I have a	2	MR. BROWN: No.
3	second?	3	MR. GAGNON: Mr. Gustafson.
4	MR. HUNT: I second.	4	VICE CHAIR GUSTAFSON: Yes.
5	VICE CHAIR GUSTAFSON: Roll call.	5	MR. GAGNON: So that motion fails, with all
6	MR. GAGNON: Mr. Ncube.	6	Board members except for Mr. Gallon and Mr. Gustafson
7	MR. NCUBE: Yes.	7	with the affirmative vote. So there will be no nuts
8	MR. GAGNON: Ms. Clark.	8	and no whipped cream. One final opportunity for
9	MS. CLARK: Yes.	9	VICE CHAIR GUSTAFSON: The floor is open for
10	MR. GAGNON: Mr. Hunt.	10	another motion.
~	MR. HUNT: Yes.	11	MS. CLARK: Chair.
11	MR. GAGNON: Mr. Gallon.	12	VICE CHAIR GUSTAFSON: Ms. Clark.
11	MR. GALLON: No.	13	MS. CLARK: May I suggest that each of us
11 12		13 14	
11 12 13	MR. GALLON: No.		MS. CLARK: May I suggest that each of us give a topping of our liking to see if that would work
11 12 13 14	MR. GALLON: No. MR. GAGNON: Mr. Brown.	14	MS. CLARK: May I suggest that each of us
11 12 13 14 15	MR. GALLON: No. MR. GAGNON: Mr. Brown. MR. BROWN: Yes.	14 15	MS. CLARK: May I suggest that each of us give a topping of our liking to see if that would work for everybody?

11 (Pages 41 to 44)

	Page 45		Page 47
1	MR. GALLON: Nuts and whipped cream.	1	questions on making motions or Robert's Rules of Order
2	MR. BROWN: Mr. Chairman.	2	in general?
3	VICE CHAIR GUSTAFSON: Mr. Brown.	3	So hearing none, our next presenter is
4	MR. BROWN: Everything sounds good to me, all	4	Ms. Lina Busby. She's our Assistant City Attorney and
5	of them.	5	she'll provide the Board with an overview of Florida's
6	VICE CHAIR GUSTAFSON: Very well, so can I	6	Government in the Sunshine Laws.
7	maybe have a motion?	7	Ms. Busby.
8	MR. NCUBE: I believe that we had turned down	8	MS. BUSBY: Thank you.
9	the nuts and whipped cream. Why are we revisiting?	9	Good evening, Chair, distinguished members of
10	MS. CLARK: Chair, I didn't get my	10	the Board. My name is Lina. I'm the Assistant City
11	VICE CHAIR GUSTAFSON: Ms. Clark.	11	Attorney.
12	MS. CLARK: I didn't get my turn. Bananas.	12	I've been here for about four years. Prior
13	VICE CHAIR GUSTAFSON: Do I have a motion for	13	to that, I was in private practice. And I also worked
14	any of those toppings that you would like to add on	14	while I was in law school at the City of Miami. I am
15	top?	15	from Miami, but my parents met and fell in love about
16	MS. CLARK: I make a motion that we consider	16	40 years ago here in Riviera Beach. And recently I had
17	all of the contributions by each of the Board members	17	to tell my dad that they tore down the building he used
18	of their favorite topping.	18	to work in right there, Tropical, you know, in the Port
19	VICE CHAIR GUSTAFSON: Do I have second?	19	area. So he was disappointed. He said: That building
20	MR. BROWN: Second.	20	is so new. I said: No. When you worked there. Not
21	VICE CHAIR GUSTAFSON: Roll call.	21	now.
22	MR. GAGNON: Mr. Brown.	22	So it's nice to meet you, and I'm glad that I
23	MR. BROWN: Yes.	23	learned a lot of things about our members. So I'd just
24	MR. GAGNON: Mr. Gallon.	24	like to review that.
25	MR. GALLON: Yes.	25	Mr. Gallon, you're a bowler. Didn't know
	Page 46		Dagg 40
	5		Page 48
1	MR. GAGNON: Mr. Hunt.	1	that.
1 2		1 2	
	MR. GAGNON: Mr. Hunt.	1	that.
2	MR. GAGNON: Mr. Hunt. MR. HUNT: Yes.	2	that.  Mr. Brown, field hockey. Very surprising.  Mr. Hunt, Washington Nationals. Wow, cool.  Mr. Gustafson, well, I think your hobby, you

As the members of the Planning and Zoning Board, you have a new responsibility, and that is going to be to comply with
2 3 4 5 6 7 8 9 10 11 12 13 14	MR. GAGNON: Mr. Hunt. MR. HUNT: Yes. MR. GAGNON: Ms. Clark. MS. CLARK: Yes. MR. GAGNON: Mr. Ncube. MR. NCUBE: No. MR. GAGNON: Mr. Gustafson. VICE CHAIR GUSTAFSON: Yes. MR. GAGNON: So that motion carries, with Mr. Ncube dissenting. So congratulations on your sundae. I think that practice was effective, and I think it showcased a lot of possibilities as far as making motions, you know, having a second for a motion that may not carry there's nothing wrong with	2 3 4 5 6 7 8 9 10 11 12 13	that.  Mr. Brown, field hockey. Very surprising. Mr. Hunt, Washington Nationals. Wow, cool. Mr. Gustafson, well, I think your hobby, you said water sports, but I think it's going to be new baby.  Ms. Clark, I'm very impressed to hear that you love boat owners.  And Mr. Ncube, an international traveler. I really appreciate learning about you. So congratulations. As the members of the Planning and Zoning Board, you have a new responsibility, and that is going to be to comply with the Florida Sunshine Laws. What I passed out to you
2 3 4 5 6 7 8 9 10 11 12 13 14 15	MR. GAGNON: Mr. Hunt. MR. HUNT: Yes. MR. GAGNON: Ms. Clark. MS. CLARK: Yes. MR. GAGNON: Mr. Ncube. MR. NCUBE: No. MR. GAGNON: Mr. Gustafson. VICE CHAIR GUSTAFSON: Yes. MR. GAGNON: So that motion carries, with Mr. Ncube dissenting. So congratulations on your sundae. I think that practice was effective, and I think it showcased a lot of possibilities as far as making motions, you know, having a second for a motion that may not carry there's nothing wrong with that or having a motion made that maybe does not get	2 3 4 5 6 7 8 9 10 11 12 13 14 15	that.  Mr. Brown, field hockey. Very surprising. Mr. Hunt, Washington Nationals. Wow, cool. Mr. Gustafson, well, I think your hobby, you said water sports, but I think it's going to be new baby.  Ms. Clark, I'm very impressed to hear that you love boat owners.  And Mr. Ncube, an international traveler. I really appreciate learning about you. So congratulations. As the members of the Planning and Zoning Board, you have a new responsibility, and that is going to be to comply with the Florida Sunshine Laws. What I passed out to you before you got here was just a brief little outline of
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	MR. GAGNON: Mr. Hunt. MR. HUNT: Yes. MR. GAGNON: Ms. Clark. MS. CLARK: Yes. MR. GAGNON: Mr. Ncube. MR. NCUBE: No. MR. GAGNON: Mr. Gustafson. VICE CHAIR GUSTAFSON: Yes. MR. GAGNON: So that motion carries, with Mr. Ncube dissenting. So congratulations on your sundae. I think that practice was effective, and I think it showcased a lot of possibilities as far as making motions, you know, having a second for a motion that may not carry there's nothing wrong with that or having a motion made that maybe does not get a second. If that happens, then there wouldn't be a	2 3 4 5 6 7 8 9 10 11 12 13 14 15	that.  Mr. Brown, field hockey. Very surprising. Mr. Hunt, Washington Nationals. Wow, cool. Mr. Gustafson, well, I think your hobby, you said water sports, but I think it's going to be new baby.  Ms. Clark, I'm very impressed to hear that you love boat owners.  And Mr. Ncube, an international traveler. I really appreciate learning about you. So congratulations. As the members of the Planning and Zoning Board, you have a new responsibility, and that is going to be to comply with the Florida Sunshine Laws. What I passed out to you before you got here was just a brief little outline of the Sunshine Law. It's not too fascinating or

And Mr. Ncube, an international traveler. I really appreciate learning about you. So congratulations. As the members of the Planning and Zoning Board, you have a new responsibility, and that is going to be to comply with the Florida Sunshine Laws. What I passed out to you before you got here was just a brief little outline of the Sunshine Law. It's not too fascinating or thrilling, but it's very important to your job as members of this Board.  I'd like to go through it a little bit. So first and foremost, we're going to be looking at the Florida statute that governs Sunshine Law, which says that all meetings of any Board of a municipality

12 (Pages 45 to 48)

#### Page 49

and no resolution, rule or formal action shall be considered binding except as taken or made at such meeting.

So let's talk about what constitutes a Board. This is a Board because you have decision making functions, and therefore, you are subject to the Sunshine Law. Your decision making functions will be as recommendations to the City Council, and they're very important functions.

What constitutes a meeting? Any occasion where two or more members of the same Board or committee communicate on any matter which may foreseeably come before the Board or committee for action.

And finally, what's a communication? It's pretty easy to understand. It's anything that you communicate by telephone, by e-mail, by written document, social media, so if there's communication via Facebook or any other social media forum. And it also includes communications that might go through a third party. Usually in the Florida Sunshine, you may have heard it called a conduit. It's a person that just, you know, is acting between two parties.

Next I have requirements for a public meeting. You're going to see -- I'm going to just

Page 51

misdemeanor, which carries a penalty up to \$500 in a fine and 60 days in jail.

And sometimes, you know, we have here in Palm Beach County a Public Corruption Unit. They can investigate these violations, or alleged violations, and you will have to go to court to defend yourself if you're accused of that.

Second, there are civil sanctions. And what that is is it's usually when there's an inadvertent violation of the Sunshine Law. The penalty can be up to a \$500 fine. And finally, there is a sanction of removing a person from the Board or from their office. You can be required to pay attorneys' fees, and there could be other such relief.

Besides sanctions, the other effect of a Sunshine Law violation would be that the actions that are taken out of the sunshine or in the dark are essentially considered void. They're treated as invalid. Now, members of the general public might have standing to sue as well.

And thirdly, the initial action that may have been taken in that shade meeting can be cured by a final action by bringing it to the Board in the sunshine. So you should be aware of that, that there are some cure things. And usually that happens when we

Page 50

briefly overview this. These will not be things that you will primarily be concerned with. We usually, as a staff, ensure that we're in compliance with this section of the Government in the Sunshine Laws.

So first, the meeting must be open to the public. Public notice is given. And Mr. Gagnon's office and staff and the Clerk's office work together to make sure that all the requirements of public notice are met. Minutes are taken, so that's why you see Miss Susan over here writing down everything or typing down everything we say.

And then one important part of the requirements for a public meeting is that all Board members who are present and have voting rights must vote unless they have a conflict of interest. And I will recommend that if you think you have a conflict of interest, you should contact me and/or Mr. Gagnon, and then we can discuss it and see what the options are going forward.

Now, this is not the happy part of my, you know, overview with you, but it's a very necessary part. There are effects of Sunshine Law violations. And so these effects are sanctions. The first thing can be criminal. That's if you knowingly violate part of the Sunshine Law, and that's a second degree

Page 52

have an inadvertent violation of the Sunshine Law.

Lastly, I'll go over the public records section of the Sunshine Laws for you. And in Florida, all records and documents that are made or received in connection with the official business of a governmental entity, such as the City of Riviera Beach and this Board, is subject to public inspection and copying.

What does that mean? That means the written documents, the minutes, any computer electronic files you keep as a Board, e-mails, tape recordings, photographs, text messages, generally a record in any form that is made or received in connection with the official business of the City is a public record.

And a lot of times as Board members, you may be taking notes. Now, if these notes are purely for refreshing your memory or you just want to jot something down about an item, then most likely, that's not going to be a public record.

However, if your notes are intended to perpetuate or communicate or formalize your knowledge on this item, then it can be considered a public record and we ask that you preserve them, and they would be subject to production and inspection if somebody does a public records request.

Now, the last page I did for you is a little

13 (Pages 49 to 52)

	Page 53		Page 55
1	recap of dos and don'ts. I'd suggest that you keep my	1	MS. BUSBY: You're so lucky, Mr. Ncube, I
2	memo with you or in your folder that you bring to your	2	have extra copies.
3	meetings. And if you ever have a question, then you	3	If you permit me to approach, Chair, I'll
4	can obviously contact me at any time. And I'm going to	4	provide it to him.
5	give you my direct line right now so that you can do	5	VICE CHAIR GUSTAFSON: Absolutely.
6	that. First, my e-mail is lbusby@rivierabeach.org.	6	MS. BUSBY: Thank you.
7	And you can contact me at 845-3414.	7	VICE CHAIR GUSTAFSON: And I have one quick
8	MS. CLARK: Could you repeat that, 84	8	question.
9	MS. BUSBY: 845-3414.	9	MS. BUSBY: Yes, Chair.
10	MS. CLARK: Thank you.	10	VICE CHAIR GUSTAFSON: Besides our Board
11	MS. BUSBY: And we are here to assist you.	11	here, we're allowed to speak to other Boards that deal
12	I'm the attorney that is assigned to the Planning and	12	with the City of Riviera Beach, correct?
13	Zoning Board, and any time that a legal question	13	MS. BUSBY: Yes, you may. And I actually
14	arises, we're there for you. So you should know that	14	covered that question as well in the dos on number
15	there's no bad question. And in fact, you'll always	15	three: Do feel free to talk to other members of other

Can we have lunch and talk about those kinds of things without having the presumption of guilt that we're going to be talking about Board events?  MS. BUSBY: Yes, Mr. Hunt, feel free to have social interactions with each other. The only thing you cannot do is you cannot discuss things that would come before the Board, or reasonably foreseen to come before the Board.  MR. HUNT: Of course.	2 3 4 5 6 7 8 9 10	that might be proposing a project to the Board. And what I say in response to that is that's completely up to the Board member.  If they choose to not meet with a developer, they don't have to. If they choose to take a meeting with a developer, they absolutely can do that. But per Ms. Busby's direction, make sure you're not taking a meeting with another Planning and Zoning Board member simultaneously. It has to be a one-on-one meeting with a developer and yourself or the Sunshine Law would come into play.
2 3 4 5 6 7 8 9 10 11	great interest in our prior military careers and in his teaching and my IT background. Can we have lunch and talk about those kinds of things without having the presumption of guilt that we're going to be talking about Board events?  MS. BUSBY: Yes, Mr. Hunt, feel free to have social interactions with each other. The only thing you cannot do is you cannot discuss things that would come before the Board, or reasonably foreseen to come before the Board.  MR. HUNT: Of course.  MS. BUSBY: But in fact, in my dos and don'ts	2 3 4 5 6 7 8 9 10 11	that might be proposing a project to the Board. And what I say in response to that is that's completely up to the Board member.  If they choose to not meet with a developer, they don't have to. If they choose to take a meeting with a developer, they absolutely can do that. But per Ms. Busby's direction, make sure you're not taking a meeting with another Planning and Zoning Board member simultaneously. It has to be a one-on-one meeting with a developer and yourself or the Sunshine Law would come into play.  MS. CLARK: Chair.
2 3 4 5 6 7 8 9 10 11 12 13	great interest in our prior military careers and in his teaching and my IT background. Can we have lunch and talk about those kinds of things without having the presumption of guilt that we're going to be talking about Board events?  MS. BUSBY: Yes, Mr. Hunt, feel free to have social interactions with each other. The only thing you cannot do is you cannot discuss things that would come before the Board, or reasonably foreseen to come before the Board.  MR. HUNT: Of course.  MS. BUSBY: But in fact, in my dos and don'ts you'll see that number one on dos: Do feel free to	2 3 4 5 6 7 8 9 10 11 12 13	that might be proposing a project to the Board. And what I say in response to that is that's completely up to the Board member.  If they choose to not meet with a developer, they don't have to. If they choose to take a meeting with a developer, they absolutely can do that. But per Ms. Busby's direction, make sure you're not taking a meeting with another Planning and Zoning Board member simultaneously. It has to be a one-on-one meeting with a developer and yourself or the Sunshine Law would come into play.  MS. CLARK: Chair.  VICE CHAIR GUSTAFSON: Ms. Clark.
2 3 4 5 6 7 8 9 10 11 12 13 14	great interest in our prior military careers and in his teaching and my IT background. Can we have lunch and talk about those kinds of things without having the presumption of guilt that we're going to be talking about Board events?  MS. BUSBY: Yes, Mr. Hunt, feel free to have social interactions with each other. The only thing you cannot do is you cannot discuss things that would come before the Board, or reasonably foreseen to come before the Board.  MR. HUNT: Of course.  MS. BUSBY: But in fact, in my dos and don'ts you'll see that number one on dos: Do feel free to attend social functions with colleagues who are also on	2 3 4 5 6 7 8 9 10 11 12 13	that might be proposing a project to the Board. And what I say in response to that is that's completely up to the Board member.  If they choose to not meet with a developer, they don't have to. If they choose to take a meeting with a developer, they absolutely can do that. But per Ms. Busby's direction, make sure you're not taking a meeting with another Planning and Zoning Board member simultaneously. It has to be a one-on-one meeting with a developer and yourself or the Sunshine Law would come into play.  MS. CLARK: Chair.  VICE CHAIR GUSTAFSON: Ms. Clark.  MS. CLARK: Ms. Busby, just a hypothetical.
2 3 4 5 6 7 8 9 10 11 12 13	great interest in our prior military careers and in his teaching and my IT background. Can we have lunch and talk about those kinds of things without having the presumption of guilt that we're going to be talking about Board events?  MS. 1 violation, because you can actually have communications 2 with the developers on projects. It's just the 3 violation comes when it's another member of the Board 4 who is present as well, because you don't want there to 5 be another member of the Board hearing your point of 6 view with that other person.

> MS. CLARK: Right, I appreciate that. I just wanted to make sure that the Board person's intention was not to have that conversation, but someone decided that let me go ahead, since I see that person, and start a discussion.

MS. BUSBY: That's a very thoughtful question, and I'm glad that you raised it.

VICE CHAIR GUSTAFSON: Anything else from the Board? Mr. Gagnon.

MR. GAGNON: Thank you, Chair.

Next we have Mr. Josue Leger, who is our Senior Planner/GIS Specialist, to provide the Board with a presentation on the City's Comprehensive Plan, as well as our future land use map and zoning map.

Mr. Leger.

MR. LEGER: Good evening, Chair. Good evening, Board members. Again, welcome. I'm Josue Leger, as Jeff Gagnon mentioned earlier.

A little bit about myself. I've been with

Page 59

Page 60

So what are some of the major components of this document? So this document is -- I do want to mention adopting that document requires the public hearing process, which involves surrounding municipalities and the county that the city is located within. For example, Palm Beach County for the City of Riviera Beach, as well as a few State agencies, and that application, of course, goes up to DEO, which is the Department of Economic Opportunity, which formerly was known as DCA.

So back to some of the major components of that Comprehensive Plan. You guys do have access to that document. In fact, it's on our website under the Development Services forms and documents. I believe you guys have a link within the packets that you received from our staff.

And this is a hard copy of the City of Rivera Beach Comp Plan. This consists of elements, goals, objectives, policies and a few series of maps. So a few elements are future land use, housing, transportation. Now, the State does require some of these elements to be included within a city's Comp Plan. But also, you will run into other elements that's within the Comp Plan that's more appropriate to a certain city that is not required by the State. All

Page 58

the City of Riviera Beach for approximately two years now. I previously worked with the Department of Planning and Zoning for Palm Beach County. I've also worked within -- down south for the City of North Miami Beach, as well as the City of Opa-Locka. It has been a pleasure to work with the City, with the existing Board members, and I look forward to definitely working with the newly appointed Board members. Again, welcome.

I will be covering one of the important aspects of what you guys will be seeing.

Yes, can you hear me better?

VICE CHAIR GUSTAFSON: Very good.

13 MR. LEGER: I apologize.

> So we will be covering other important aspects when it comes to developments, as well as planning and zoning. Not as fun as the ice cream motion, but hopefully it's helpful.

17 18 As some of you may already know, the State 19 requires every municipality, as well as county

government, to adopt a Comprehensive Plan. This typical document sometimes can be referred to as a

Comprehensive Development Master Plan, or most people 23 call it a Comp Plan. So pretty much the Comp Plan, 24

what it does, it identifies the visions of the city

through goals, objectives and policies.

right?

So of course, a few series of maps. Some of the maps you'll find in the Comp Plan is a FLU map, a future land use map, and a few conservation or traffic; anything that relates to transportation and traffic also included within the Comp Plan documents.

So monitoring. So since the City has to identify its goals and objectives and policies or its vision through this document, the State also makes sure that they're able to monitor progress or any changes that occurs over the time period. And I believe it's between seven to ten years where the cities are required to conduct an EAR based amendment, which stands for Evaluation and Appraisal Report.

And in that report you will look back at what you said within your Comp Plan. Have you achieved it? You fell short? And how can you -- what can you change within that Comp Plan to make it more possible to -- or more possible goals or objective to attain? So that's the amendment process required by the State.

Of course, as we all know, these are papers. Nothing is set in stone. There can be changes. So the Comp Plan can actually be amended. It could be whether through the city, the city can initiate an amendment, or a private entity can also initiate an amendment.

15 (Pages 57 to 60)

2.4

#### Page 61

But most of these amendments does or must follow the public hearing process.

Of course, you have different type of amendments. You have small scale; anything under ten acres is considered small scale. Anything larger is considered large scale amendment.

Now, that amendment could be a text amendment, meaning that you're going to the document, you're actually changing text, or it could be a map amendment where you're not touching the text, you're just redesignating a certain area on the future land use itself. It could have been commercial, now the entity wants it to be or the city wants it to be industrial. So we have to go through this amendment process to be able to change the Comp Plan.

I also have a picture of what a future land use map looks like. It does have most of the areas. Just for quick reference, the blue is our IG, our industrial areas, considered industrial area. And you have some of the yellows, considered residential areas. I'm not going to go into details. There is a legend that identifies the components of the map itself to tell you what's industrial, what's commercial and what's residential.

And I do also want to mention, which I have

Page 63

1 VICE CHAIR GUSTAFSON: Thank you very much 2 for your presentation.

MR. HUNT: Thank you.

MR. LEGER: Ms. Ann.

MS. DeVEAUX: Good evening, Planning and Zoning Board members. My name is Ann DeVeaux. I'm the Senior Planner in Development Services, and I'm the newest member of the team. I'm been here seven months in this beautiful city where one lives, work and play. I love it. It has been very rewarding for me so far, and I'm working with a great group of colleagues. And I'll go into my presentation.

(Discussion held off the record.)

Okay, so my task tonight is to give you an overview of the Land Development Regulations. The Land Development Regulations, what are they and why do we need them? They are Code of Ordinances that were enacted by the City in 1957 and has been amended several times. They are housed in the Municode Library, which is a third party provider, a publisher of codes of various municipalities.

The Land Development Regulations, commonly referred to as LDRs or PDRs, Property Development Regulations, are provisions of the Code that regulate and maintain control of all development of all land

Page 62

here, a zoning map. There you go, a zoning map. So the Comp Plan automatically adopts a zoning map by reference. So typically, once a city adopts a Comp Plan, they also have to come up with the zoning regulations, which also has a map, which is the zoning map. So the Comp Plan will make sure that the zoning map is consistent with the future land use map.

For example, if you have a property that has a zone of CG, which is considered general commercial, now when you go to the Comp Plan map, since it's commercial, and the zoning map, for it to be consistent or in compliance, it must also be a commercial FLU, within the FLU, within the future land use map itself.

So there are instances where you find inconsistencies. That's where staff come in over the years to make sure that we analyze, identify any inconsistencies or incompatibility between the zoning map and the future land use map to make sure that we amend it to be -- to talk to each other, in laymen's terms.

So again, this concludes my presentation. If you guys have any questions or not, I'll forward it to next staff that's going to present.

VICE CHAIR GUSTAFSON: Board, any questions? MR. HUNT: No.

Page 64

within the city. And the regulations commonly referred to, as I said, Land Development Regulations or PDRs, LDRs, or we call it the Code.

What is the purpose and intent of Land Development Regulations? To summarize, it is to control and maintain any aspect of development of all land within the city and includes requests for zoning, rezoning, land use changes, platting and/or signage.

I've only listed about seven elements that it protects, the seven intents of the Land Development Regulations. It's many more. But the first is to protect the health, public safety and welfare of the citizens; establishes comprehensive and consistent standards and procedures for review and approval of all proposed developments. It also ensures that all development orders approved are consistent and compatible with the city's Comprehensive Plan and Land Development Regulations, as Mr. Leger previously mentioned.

It also encourages the most appropriate use of the land, the water and natural resources. It ensures managed growth and sustainability of developments, and it serves as a guide for developers in maintaining the community character and stability of present and future land uses.

16 (Pages 61 to 64)

#### Page 65

So what do LDRs do? What do they regulate? As a Planner, we look to the regulations and we apply them to any project that may be coming in for us for approval. We apply these Land Development Regulations to the location, the height, placement of buildings or structures, spatial separations, bulk and size of buildings and other structures, size of yards, courts and other open spaces, density, the uses of buildings and structures, and land for trade, industry, business, residence or other purposes.

The planning and zoning most applicable regulations that we use are Chapter 28, which regulates signage, the size, square footage, type of signs, and Chapter 31, which is zoning. In these chapters you have articles from I to XI. And these articles address the definitions, site plan review, nonconforming uses, off-street parking and loading, the Florida friendly landscape regulations concurrency, wireless service facilities, tower and antenna sitings, just to mention a few

And then there's Article V, which is your district specific regulations. In Article V, the zoning districts are separated into divisions. And Mr. Leger showed you the zoning map, and you saw all those various colors. Those colors represent zoning

Page 67

you the specific regulations for that zoning district.

For instance, under Division 2, it is RS-5. That's the zoning district, a single family dwelling district. It gives you the purpose of that district, the use regulations that apply to it, the property development standards, parking, landscaping and any nonconformities of the lots or structures.

So the input and feedback and instructions or comments that you, as the Planning and Zoning Board, gives to staff for the City Council or the citizens of the City is invaluable. And we look forward to hearing from you with regards to any development project that we may present to you.

So after staff has researched the request and prepared an analysis and presented it to you, the Planning and Zoning Board, with its recommendations, you are encumbered then to review staff's analysis and make recommendations or voice your concerns to us as staff.

You're also to provide input to the applicant, when applicable, and staff comments and other issues identified through the amendment process, and to obtain a final recommendation and determination of consistency with the Land Development Regulations and Comprehensive Plan prior to it being scheduled for

Page 66

districts.

1 2

For instance, in Article V, under Division 11, that is the regulation that governs office and professional uses. It's called OP. So that's just an example of what -- a division is really the zoning district.

And then we have Article VI, which is supplemental district regulations, and that's additional regulations that may apply. It may be special exception uses, uses that are subject to special exceptions that would also be in the supplemental district regulations.

So the organization of the Land Development Regulations, how do I find what I'm looking for? Article V, like I said, is the district regulations. You probably can't read that very well, but when you go to Municode and you access the regulations, Article V, you will see it starts as Division 1, which is your general regulations, and then from 2 through, I think about 18 or so, it gives you all the various zoning districts.

So if you click on a zoning district that you're interested in there in that division, it will take you over to that specific zoning district, if you look over to the next column there, and it will give

Page 68

presentation to the City Council. So we look to you for those instructions and for those recommendations.

That pretty much concludes my presentation. If you have any questions, I'll be happy to answer them for you.

MR. HUNT: Yes, I do.

VICE CHAIR GUSTAFSON: Mr. Hunt.

MR. HUNT: Do you highlight in your presentations on a particular project where there may be questionable areas or where there's issues, from your standpoint, over the pluses and minuses of a particular proposal? I'm thinking about things like parking, amount of parking space, things of that sort that may be subject to different interpretations and things of that sort. So the real question is: Do we have to become experts on all the subtle details of parking, or will you help us highlight the areas where you may have some need for additional guidance?

MS. DeVEAUX: Absolutely we do that work for you. We prepare an analysis --

MR. HUNT: Thank goodness.

MS. DeVEAUX: -- with our recommendations to the Board. Those recommendations -- we may even recommend that something not be a project or a particular aspect of a project not be approved, or we

17 (Pages 65 to 68)

#### Page 69 Page 71 1 may recommend additional standards or something like 1 not long-term maintenance for the City. 2 2 MR. HUNT: And that is a provision of the 3 3 MR. HUNT: Good. agreement that's been established with that developer 4 4 MS. DeVEAUX: Yes, we do the analysis for for this particular case, as an example? 5 5 MR. GAGNON: So I don't think it was a 6 MR. HUNT: Good. 6 specific condition, but the way that the documents were 7 MS. DeVEAUX: But we just basically wanted to 7 drafted, it's all private, and it's all private 8 go over this so you will know how to access the Code 8 utilities that are proposed by the development team. 9 9 and to see how it's divided, because it can look like a So there is no request for public infrastructure within 10 jungle when you first look at it. 10 the development. 11 MR. HUNT: Sure. Thank you. 11 MR. HUNT: Okay. 12 MS. DeVEAUX: My pleasure. 12 MS. CLARK: Chair. VICE CHAIR GUSTAFSON: Any other questions? VICE CHAIR GUSTAFSON: Ms. Clark. 13 13 14 Thank you very much for your presentation. 14 MS. CLARK: Just a general question, 15 MS. DeVEAUX: You're welcome. Thank you. 15 Mr. Gagnon, that when various projects are being VICE CHAIR GUSTAFSON: Mr. Gagnon. 16 16 submitted to the Board for discussion, approval, whatever the situation may be, I would think that the 17 MR. GAGNON: Thank you, Chair. 17 18 18 Thank you, Ms. DeVeaux. due diligence of it all has already been ironed out 19 19 I guess to build off of Mr. Hunt's question, with the staff. 20 20 another tool that staff has that's frequently used is For example, in my job, I do that with my to add additional conditions of approval for a certain 21 21 vendor partners, package it, all the details, pricing, 22 project. We have some standard conditions of approval 22 whatever it may be is already ironed out, bring it to that are embedded in approval of resolutions, but 23 23 my team for a pair of eyeballs to look over, then it 24 depending on the uniqueness of the project, there's 24 goes for final approval to my immediate manager. 25 some flexibility as far as what those conditions could 25 So I'm asking that because I'm new, have you Page 70 Page 72 1 1 be, so long as the development team is in agreement extended to Board members, established or new, maybe to 2 with those conditions. So that's another tool we have 2 come in and sit with the team on a specific project and 3 3 in our toolbox to help assist with unique situations or just kind of observe the process in which they come to 4 circumstances. 4 different conclusions and decisions? I would take a 5 5 MR. HUNT: Can I ask a question? vacation day. 6 6

25

VICE CHAIR GUSTAFSON: Mr. Hunt.

MR. HUNT: On to that particular subject with the map of Riviera Cove up, it's my understanding from the water and wastewater plan that much of the water pipes in that area are ancient. And is there a condition -- maybe I'm getting ahead of what you're going to say, but is there a condition there so that the owner of that or the builder of that new property is going to replace all of that ancient water and sewer in that property area?

MR. GAGNON: The trend that we've been seeing from our Utility District is if there's any private development or any change in ownership that's large scale, we're getting away from attempting to maintain utility infrastructure within other developments.

So what the trend is currently and what the desire is currently is to really have a backflow preventer at, for this case, it would be at U.S. 1 at Broadway, and then anything that's on private property would be owned by that community. So that way, it's

MR. GAGNON: Okay. The most frequent project that the Board will see is a project that is definitely fully vetted. Oftentimes there's very rigid standards that have to be met. I'd say that maybe 90 percent, 95 percent of the development items are very rigid and are not flexible based on what our Code structures are.

It's that five percent or ten percent that is still open for interpretation, or it may be perhaps a design element or maybe the aesthetic appeal of a project that the Planning and Zoning Board may have more influence on. So that's really the only heavy lift that the Board may have to do. As Ms. DeVeaux mentioned, a lot of the staff analysis and Code analysis is provided within our staff reports to the Board.

And I think in response to your second question, our doors are always open. If there's a specific project that you have questions on, we're more than happy to respond to e-mails, phone calls. If you want to come in office and kind of have a walk-through,

#### Page 73 Page 75 1 really through a project or a specific site plan, we 1 MR. GAGNON: -- you know, it might be one 2 2 can kind of touch on the high points and the things thing if it's just to sit and listen, but if there's 3 3 that we're focused on when we're reviewing the plans, open conversation or you're kind of providing your 4 4 viewpoints on a certain element of the project, that and we'd be happy to arrange that with you or any other 5 5 Board member, or if there's a member of the public that might be seen as a violation of Sunshine. 6 would like to do that, you know, we'd make the time to MR. HUNT: Sure. Well. I mean I think it's a 7 7 make sure that happens. very important issue, so if you could get back to us 8 MS. CLARK: Okay, sure. Thank you. 8 with your thoughts and things of that --9 MR. HUNT: Can we come in together? 9 MR. GAGNON: Absolutely. 10 MR. GAGNON: I would not recommend coming in 10 MR. HUNT: -- I think that would help. 11 11 MR. GAGNON: Absolutely. together. 12 MR. HUNT: Precisely. Just wanted to be 12 So the anchor person for our presentations 13 sure. 13 tonight, Ms. Andrea Harper, she's our Principal Planner 14 MR. GAGNON: Good question; good question. 14 at the City, and she'll provide an overview of the site 15 MR. HUNT: Can I ask another question 15 plan process and role of site plans for the Planning 16 16 somewhat related to that? Mr. Evans mentioned having a and Zoning Board. 17 number of opportunities for community meetings and 17 Ms. Harper. 18 things of that sort on their projects. Is it a problem 18 MS. HARPER: Thank you, Jeff. 19 19 if we become actively engaged in going to those Good evening, Planning and Zoning Board 20 meetings and using that as a basis for understanding of 20 members. Once again, my name is Andrea Harper. I'm 21 what they're doing? That could be a project that comes the Principal Planner here. And just to give you a 21 little bit of information about me, I was raised here, 22 up to the Board, and I guess we're probably walking a 22 23 23 thin line here. and I interned here as an intern in the Planning 24 MR. GAGNON: Yes. It's a good question. I'm 24 Department in the early -- well, late eighties. 25 going to have to -- let me defer on that response at So this is like full circle for me to come Page 74 Page 76 1 this point in time. I'm always hesitant to say move 1 back more than 25 years, and a dream come true to work 2 forward in any meeting space where -- you know, the 2 here in Rivera Beach and to bring my talents back to 3 redevelopment plan will most definitely come before the the City of Riviera Beach in any way I can assist it, 3 4 Planning and Zoning Board. the City, just like you, to be a better community, to 5 MR. HUNT: Sure. look better overall and to be planned better. MR. GAGNON: That's guaranteed. So I 6 So my task tonight is to help you understand 7 7 think -- let me brainstorm a little bit about the best the process of a site plan. What is a site plan, okay? 8 process as far as providing that information to the P&Z And first thing, we normally start off when we have our 9 Board. It's something that maybe there's a separate 9 pre-app meetings here, we try to start off with an 10 way of providing input or analysis or review that would 10 area. And this area is a recently approved project 11 11 be completely separate and apart from any perceived that's been before the Board here, the Planning and 12 12 conflict of Sunshine violation. Zoning Board and the City Commission, and it has been 13 MR. HUNT: Sure. Well, I think they're under 13 approved. It was for 89 units. 14 the same rules of Sunshine as well. So I mean I think 14 But starting off, the aerial, we look at the 15 15 they're public meetings -aerial. What's the surrounding things when they come 16 MR. GAGNON: That's true. 16 to the office? We want to see what are the effects, 17 MR. HUNT: So attending a public meeting is 17 will it have any effects on the surrounding 18 18 not a problem? neighborhood, okay? 19 MR. GAGNON: That's true. I guess the point 19 So we also, going down here, you can see 20 20 right now that was existing. It was a split zoning and I want to ensure that I'm clear on is let's say there's 21 multiple Planning and Zoning Board members that do 21 a split land use. So, and we had to bring it together. 22 attend the meeting, and a Board member wants to openly 22 And we had a land use change and a rezoning. Okay, 23 23 discuss an element of the project during the meeting. there was a land use change and rezoning, so now it's

19 (Pages 73 to 76)

all consistent. The zoning is consistent and the land

Florida Court Reporting 561-689-0999

24

25

use is consistent.

24

25

Now, that's where the door might open up where --

MR. HUNT: Gotcha.

#### Page 77

Okay, and with a site plan, you have to start off with a survey. This is a survey. A survey is commonly used to determine the boundaries and the features of properties and to determine the easements and encroachments and to develop and to build on land and to satisfy local building codes and regulations. So this is a survey. It's a base to start out our site plan.

And some things that we look at is the acreage and the bearings and distance around the property to make sure the bearings and distance line up with the survey that's going to be submitted. And you might not know what a bearing is. This is sort of like the longitude and latitude. Mr. Brown would know, because he deals with surveys all the time. But, and also the distance, what's the width and the length of the property? We want to make sure that's right. What's the acreage? Is the acreage going to line up with the site plan? So that's a key thing.

Before the meeting, I passed out for our new members a copy of a site plan, a bigger version, because this is really hard to see. And a site plan, the definition of site plan is a scaled drawing which shows the uses and structures proposed for the parcel, and it shows how the intent, the land use, that land Page 79

Here is the site data. So the site data, as you can see before, you might have the name of the project, it'll give you the zoning district, the land use, the property control numbers. A property control number, you might hear that, a property I.D. Everybody has a property I.D., a parcel has a property I.D. of Palm Beach County. Just like you have a Social Security number, properties have a property I.D. number.

It's a 17 digit number, okay? And we determine whose jurisdiction or whose municipality is the first two digits. So we're 56 here, okay? If I was in West Palm Beach, I would be 74. If I was located in unincorporated Palm Beach County, it would be 00. So that determines if you're in our municipality.

Sometimes to the west here with I-95, we've got an overlay with the County. So when a person calls in, we'll know if they give us the property I.D. number, we can tell them right away if they're in our jurisdiction and we can help them, or we'll refer them to the next jurisdiction. So that's key.

Also in the site data you will find parking calculations, okay? It will have what the required parking is. In this case, we've got 89 units, so the

Page 78

use relates to the features of the parcel and the surrounding areas.

So this is a layup of a site plan. And there's certain things that we like to see. And we're also creating for our developers and the people that we work with, we're creating a technical manual because we want a map so all our site plans that are submitted could be consistent, okay?

And some of the things that we look for in a site plan is a location map. So in the corner here, you have a location map, so it identifies where it's located, and we try to get some of the bigger street names so you'll be familiar.

In this case, we've got Silver Beach Road in the upper corner, and it's along Broadway, if I can point up there. Broadway is along that corridor, and right there at 34th Street. So you can see that on your version over there for the new Board members.

Also, there is a property developer regulation chart. And on here it gives us what Code requires for setbacks and the size, the width of the property, what the Code is requiring and also what the applicant has provided for us, okay? So that's easy to read. You can go through it. So we give you the Code section and what's proposed.

Page 80

required parking is, for every unit is two parking spaces, okay? And then we did a little better than that. We asked them to provide guest parking here. So you'll see over that, you'll see 100 extra spaces for the guest parking. So that's the site data information.

And then if you go along here, you'll see what we call parking and circulation, okay? And the parking and circulation, we start off with access points. What are the access points here? Here we have access points on Broadway and we have access points off 34th. And we give access points and also the throat distance.

We might hear -- you might hear talk about throat distance. The throat distance is how far is a parking space from the property line. So we try to have a minimum 25 feet, okay, to meet the throat distance when entering and exiting a property, okay? Also along 34th Street as well.

Signage. Is there going to be any signage? On this particular one we had a sign. We got a freestanding sign out front, okay? And we talk about we also want them -- in this case, this is residential -- we want some kind of recreation. So we do have a tot lot that's located in the south portion

20 (Pages 77 to 80)

Page 81 Page 83 1 1 okay? of the property and also a recreation area there also, 2 2 okay? So these, all of these items are very 3 3 Some other things that we look for, fire. important, and we try to vet the process as much as 4 4 possible. Now, you're going to be getting a lot of They look for fire hydrants, okay? So if there's a 5 5 fire, they want to know where do we hook up, you know? information, and you may not understand it. But feel 6 6 We got 89 units, it's a long road getting into that, so free, you can come. The Planner on call is always --7 7 they are labeled on here as well. we have a Planner on call every day. If you don't 8 8 Mr. Hunt, you did mention something about the understand something, come and talk to us about it. 9 9 hookup. You had a question for Jeff. During our We'll be glad to explain a question that you might have 10 process, all of the departments, they review all of our 10 when you're reviewing the packet. 11 site plans. We send them off to Utilities, Public 11 So are there any questions at this time? 12 VICE CHAIR GUSTAFSON: Any questions? 12 Works, Fire, Police and the Building Department. And 13 they come back. They review it in their expertise. 13 MR. HUNT: None for me. 14 They review it and they give us comments. We then, in 14 VICE CHAIR GUSTAFSON: No. 15 turn, send them out to the applicant, and they've got 15 MR. HUNT: Thank you. 16 16 VICE CHAIR GUSTAFSON: Thank you very much. 17 So that issue about the hookups, it was 17 MS. HARPER: You're welcome. 18 18 worked out with the Utilities how they were going to VICE CHAIR GUSTAFSON: Mr. Gagnon. 19 19 propose, what kind of -- I think Mr. Leighton required MR. GAGNON: Thank you, Chair. 20 20 them to have a bigger main and so forth. So those And thank you, Ms. Harper. 21 21 issues was worked out before it gets to you, okay? We And I guess if there are any questions during 22 22 the meeting on plats, Mr. Brown has caught actual try to work out all issues with all departments. 23 23 They've got to say no comments or the applicant has errors that professionals have proposed on plats before 24 24 satisfied all comments, okay? that have been corrected, so he definitely has much 25 25 This particular doesn't have -- we talk about expertise in that field. So again, I wouldn't say have Page 82 Page 84 1 a sidebar conversation with him off-line if it has to 1 phasing as well, but this particular development 2 2 do with any particular project, but maybe just that doesn't have phasing. So we don't have a phase line; 3 3 field of expertise in general. we don't have a phase chart. 4 We do dumpsters. A key thing is dumpsters. 4 So that concludes our overview for tonight. 5 That's something we look at, dumpster location. 5 Definitely appreciate everyone taking time to listen to 6 Fortunately, in this location, it will be individual 6 the presentations and for a lot of the questions and 7 7 pickup. And then if it's individual pickup, they would feedback that we've received. 8 have to get a letter from the Solid Waste Authority 8 I also want to thank Ms. Abbrella Weathers, 9 saying that there's going to be individual pickup. 9 who's our Senior Staff Assistant, who helped prepare a 10 Did I cover everything? Freestanding sign, 10 lot of the information that you have before you. 11 access, bearings. And okay, this is the site plan. 11 Additionally, I want to make mention of our 12 So also, we did approve a plat with this. 12 other Planner, Ms. Simone Davidson, who is actually out 13 13 That's going to come up, what is a plat? What does of town, so was unable to attend tonight. But this is 14 that mean? I don't know what a plat is. How does it 14 really the City's Planning staff. 15 15 differ from a survey, site plan? Okay, that's the And then also, thank you to Mr. Evans, who

> questions. MR. GAGNON: Yes, sir.

VICE CHAIR GUSTAFSON: Mr. Gagnon, I have two

23

24 VICE CHAIR GUSTAFSON: Number one, what is 25 the mechanism for what projects come before the P&Z

was able to provide that information on the CRA

So at this point, this concludes staff

presentation, and I'll return the baton to the

parking scheme, and this is the plat.

A plat. What is a plat? A plat is a plot of

particular development. And you can see it is divided,

townhomes on here. And once we get it approved and

land, a map drawn to scale showing the divisions of

individual, because there are going to be individual

applicant has to take it to the Property Appraisers to

get it recorded, the Tax Collector to get it recorded,

land, pieces of land. So this is the plat for this

signed off by the Mayor and so forth, then the

Page 85 Page 87 1 1 Board? MR. GAGNON: Okay. I know that the utility 2 2 MR. GAGNON: So if I understand the question, underground project has been discussed now for a number 3 3 it's asking how do we know when the project's ripe to of years. I don't recall if it did go to Planning and 4 4 go before the Planning and Zoning Board? Zoning Board. I think what is desired by staff, as 5 5 VICE CHAIR GUSTAFSON: Yes, what comes well as Board members, is to try to connect a lot of 6 before? What does staff see in the background prior to 6 those projects. 7 7 it coming to this Board, before it comes to this Board? And I know the Code, it discusses not 8 8 What's the mechanical piece that says, all right, this necessarily having Planning and Zoning Board action on 9 9 is time to send it to the Planning and Zoning Board? those items, but at least providing it to the Board for 10 MR. GAGNON: So I guess the quickest response 10 your information. So that way, it is provided in a 11 I can provide to that is if the project meets all of 11 public forum prior to being put before City Council, 12 12 our existing Code requirements and there are no especially on a large project that could have, you outstanding staff comments, then that would be the 13 13 know, a pretty significant financial impact to the city 14 indicator it's ready to proceed to the Planning and 14 as a whole. 15 Zoning Board, followed by City Council once Planning 15 MR. HUNT: Sure. 16 and Zoning Board makes a recommendation. 16 VICE CHAIR GUSTAFSON: Anything else? 17 VICE CHAIR GUSTAFSON: But there seems to be 17 MR. HUNT: That's it. Nothing else. 18 many projects going on in the city, and sometimes those 18 VICE CHAIR GUSTAFSON: And to follow up, my 19 19 don't come before the Board and some do come to the second question: Is it possible to have the staff 20 Board. And what size project sends it to the Planning 20 provide us a list of potential projects that are coming 21 and Zoning? Is it a size? Is it a financial value? 21 down the pipeline so we can get familiar with them 22 Is it --22 prior to the staff doing their due diligence and their 23 MR. GAGNON: There is a size that's called 23 packets? 24 out within specific zoning sections for more or less if 24 MS. CLARK: I think the Chair read my mind. you have a plot of land that is greater than an acre, 25 25 That was going to be my question too. Page 86 Page 88 1 1 MR. GAGNON: Okay. Yes, absolutely. it requires a public hearing process, which would 2 require Planning and Zoning Board review and City 2 VICE CHAIR GUSTAFSON: I know we have like an 3 3 Council review. upcoming P&Z meeting, you know, and updated projects, 4 The only other exception to that that I can 4 but --5 think of is within the CRA there's specific regulations 5 MR. GAGNON: Yes. 6 that identify the fact that if there's a property that 6 VICE CHAIR GUSTAFSON: -- if there's -- and 7 7 is proposed to be redeveloped, so if you have an that usually is stating some type of project that we 8 existing structure that's being redeveloped, there is 8 could potentially see. But I'm thinking on a grander 9 an administrative approval process that exists that 9 scale that shows the backlog that we may have. Or I 10 does not require the full Board process. But if you 10 know not all of them come to -- you know, always get 11 were to redevelop green space, that more than likely 11 finalized. But if it's something that we could have in 12 would require review by the Planning and Zoning Board. 12 writing to potentially see that these items are coming 13 VICE CHAIR GUSTAFSON: Very well. 13 down the road, then maybe we have invested interests 14 MR. HUNT: Can I ask a follow-up on that? 14 into doing our own research prior to staff collecting 15 VICE CHAIR GUSTAFSON: Mr. Hunt. 15 the data they need so we can provide feedback. 16 MR. HUNT: Yes, I think the question, I MR. GAGNON: Absolutely. 16 17 think, that the Chair raises is, for example, the 17 VICE CHAIR GUSTAFSON: It's just another way 18 underground utility initiative with the CRA, did that 18 to communicate with staff prior to that meeting. come before the Planning and Zoning Board, or was that 19 19 MR. GAGNON: Yes, absolutely. What we've 20 sort of fast-tracked by them? Significant investments 20 done historically that's been effective is we have an 21 or actions to update the water and sewer or stormwater 21 active project log, and that's information that's open 22 infrastructure, I mean I still don't -- I appreciate 22 to the public. So we can provide that to the Planning 23 the question because I still don't understand exactly 23 and Zoning Board to at least provide that baseline as 24 the interplay with all of the other organizations that 24 far as total number of projects. 25 are engaged in it. Public Works is another example. 25 It won't necessarily say a projected date of

22 (Pages 85 to 88)

DEPARTMENT OF PUBLIC WORKS

INTER-DEPARTMENTAL COMMUNICATION

Tel. (561) 845-4080

Fax (561) 840-4845

# **MEMORANDUM**

TO:

**Building Department** 

FROM:

Terrence N. Bailey, PE, Interim Public Works Director

DATE:

08/13/2019

RE:

Scope Memorandum for Building Permit on FS88 Temp Relocation

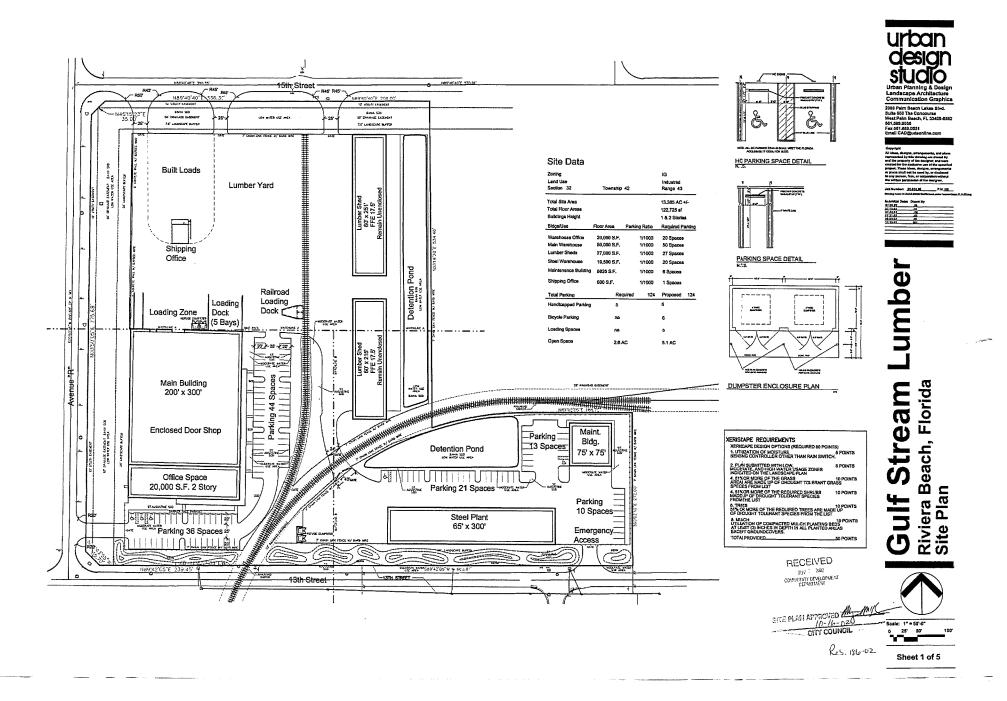

As you are aware, Fire Station #2 was approved in site plan 18-21 and resolution 09-19 for reconstruction. During the reconstruction, Fire Station #2 will be housed on the existing Public Works site at the 13<sup>th</sup> Street location. A 10'x50' Allied portable will be purchased and installed at the northern end of the property as well as a portable restroom and shower trailer. The apparatus shall be parked on the west side of the existing building. Four parking stalls shall be painted on the north side of the existing building for parking of fire staff. A lit aluminum canopy/cover shall be constructed over both portable and apparatus to ensure the first responders are dry during inclement weather. Water, sewer, data and power will be connected as appropriate to make this facility operate functionally for approximately 24 months during the duration of the reconstruction period.

A permit application shall soon follow for the demolition of the existing Fire Station 88 at Barracuda Bay, and this construction is anticipated immediately following the completion of the work described above.

## POLICE DEPARTMENT

## INTER-DEPARTMENT COMMUNICATION

**TO:** JEFF GAGNON, INTERIM DIRECTOR OF DEVELOPMENT SERVICES

**FROM:** SPENCER L. ROZIER, INTERIM CHIEF OF POLICE

**DATE:** AUGUST 20, 2019

**RE:** STOP SIGN INSTALLATION – AVENUE S @ 33<sup>RD</sup> AND 35<sup>TH</sup> STREETS

Mr. Gagnon the police department received numerous complaints, from residents, regarding speeding along Avenue S, between 30<sup>th</sup> Street and Silver Beach Road. As a result, traffic enforcement was conducted in the area, and the results support the complaints that were received. A records review revealed several traffic crashes have occurred in the same area the last few years. In addition, there are several bus stops, along Avenue S, in the area.

Based on hazards created by these conditions, the police department recommends the installation of stop signs on Avenue S, at the intersections of 33<sup>rd</sup> and 35<sup>th</sup> Street to assist with traffic control in the area.
