So, without further ado, I will get into our presentation for the Villa L'onz project. The header has been read into the record already, and I will move

4 past the next two, as they will be coming forth shortly.

5 The project location is indicated by the red figure on the screen before you, in the southeast 6 7 quadrant of the City.

The aerial in front of you now highlights the 8 9 project location off of 11th Street between Wright and 10 Avenue E.

The subject properties are located at 130 West 11th Street, 120 West 11th Street, and 1101 Avenue E. 12 13 They are three contiguous properties that are proposed 14 to be combined for this project. The parcel is 0.51 15 acres or roughly 22,156 square feet. Currently, the

16 properties are vacant with no use. The zoning is

17 Downtown General, and the future land use is Downtown 18 Mixed Use.

19 The applicant's request includes the following 20 three items:

Abandonment of an existing 15 foot by 75 foot 22 alleyway, or about 1,125 square feet in area, which 23 bisects the properties located at 130 West 11th Street 24 and 120 West 11th Street. The second application is a 25 replat of three contiguous lots of record into one

Page 11 two-story units with the three-story units having double

garages and the two-story units having single garages,

and then the front elevations at the bottom.

Before you now is a bird's eye rendering of the proposed project off of 11th Street at the south end

of this block, and then a street level rendering of the 7 rear of the proposed development.

8 For the review of this project, City staff and

9 outside agencies have reviewed this project extensively

and have found the project to be consistent with the

11 City's Comprehensive Plan and Land Development Code, and

it is now ripe for consideration by this Board. We have

reviewed, again, the Future Land Use Plan, Zoning,

existing levels of service for utilities, compatibility

with surrounding land uses, landscaping, lighting,

parking, and traffic have all been verified by various

City staff and outside agencies.

17 18 As this project does fall within the CRA of the City, it must be heard by their board before it can 19 20 move forward before City Council. On October 26th, the 21 project was reviewed by the CRA Board and was found to

22 be consistent with the goals and objectives of the

23 adopted Riviera Beach Community Redevelopment Plan. 24

For community feedback, staff has received no official correspondence in support or opposition to this

Page 10

1 parcel of property, totaling approximately 0.51 acres or

2 22,156 square feet of land area. The third component of

this development package request is a site plan from the

Riviera Beach CRA and Riviera Beach Community

Development Corporation to construct 12 two and

three-story affordable housing condominium-style

7 townhomes with associated amenities.

Before you is the proposed abandonment area circumscribed in red. Currently, it is an unimproved alleyway going between the lots.

Before you now is the proposed plat. You can 12 see here where the alleyway would end, if abandoned, and 13 then the combination of the individual lots into one

14 here, and then an access easement to access the proposed 15 townhomes. Before you now is the proposed site plan for

the property with the access easement going along the rear of the townhomes. There would be two six- unit residential townhome buildings, and in between them a

top you can see the rear elevations and the access garages for each unit. Again, there are three-story and

project. And with that, I'll make the staff 2 recommendations.

3 We recommend that the Planning and Zoning

Board recommend approval of the subject applications,

Site Plan 22-5, Plat Application 22-2, and Abandonment

6 22-1 to construct three buildings, three -- I'm sorry. 7

residential units within the Downtown General District

9 with the following site plan resolution conditions

10 proposed:

15

16

17

11 One, construction must be initiated within 18 months of the effective date of the resolution in accordance with 31-60(b) of the City Code of Ordinances

13 14 or that the site plan would expire.

Two, a two-year landscaping performance bond for 110 percent of the value of the landscaping and irrigation shall be required before a CO is issued.

18 Three, the City Council authorizes staff to 19 approve future amendments to the site plan

20 administratively, so long as the site plan does not

21 deviate greater than five percent from the originally 22 proposed -- approved site plan.

23 Four, the development was receive final

24 Certificate of Occupancy from the City within five years

of approval or the development order would expire.

Page 13

Five, all future advertising must state that the development is located within the City of Riviera Beach.

Next, once approved, this resolution shall supersede any previous site plan approvals and resolutions associated with this property.

Adoption and approval of the proposed abandonment and replat shall become effective prior to the adoption and approval of the proposed site plan.

Permits shall stipulate that the commencement of construction shall occur within two years of approval; otherwise, the subject right-of-way shall revert back to the City.

And the right-of-way abandonment privilege fee of \$3,266.27 must be paid to the City within 30 days of approval of the abandonment ordinance.

And then, finally, this is related to the plat for this project, the HOA documents must be provided and reviewed by the City before this item can move forward before City Council for consideration.

We have been working closely with the CRA throughout this process, and we do believe that they have brought forth a great product that will bring

24 affordable housing to the City. The last item is the

25 HOA documents for this project, just so we can match

Page 15

1 much the entire presentation, but I'll run through it 2 just because there's a few other items and some more

3 graphics, just to give you something pretty to look at.

How do I work this here? There's -- can we do the abandonment first, Walter? It would be the first

6 one in the list, from top to bottom, on your screen.

7 Yep, that one would be -- perfect. And we'll just click

8 through it. Okay.

9 As Mr. Sirmons mentioned, this development 10 proposal has three components. The first component 11 which you'll need to take action on has to do with the 12 alley abandonment. That needs to be abandoned prior to 13 the plat, and then, of course, the site plan.

14 The project location south of Blue Heron

15 Boulevard and west of Broadway, along 11th Street,

between Wright and Avenue E. Close-up, a similarpicture to what Mr. Sirmons had as well. You can see

it's an underutilized, unimproved site, some residential

19 structures to the south, commercial structures to the

20 east, residential to the west, and then community center

21 to the north.

Here's the alley location, as you can see, which bisects the two parcels, and we'll get into when

24 the alley was determined back in 1913.

25 Vacant property located along 11th Street

Page 14

1 those items up with everything needed to be reflected on

the plat, once those are completed. Otherwise, we believe this project is ripe for your consideration and

4 we do recommend approval, and that concludes staff

presentation.

The applicant is here, and I will yield the podium to them, so that they can make their own presentation.

9 MS. DAVIDSON: Mr. Chair, we also have a 10 comment card for Item 8, so I don't know if you want to 11 hear it now or after the applicant presents.

12 VICE-CHAIR WYLY: Would we like to wait until 13 the applicant speaks, and then have -- yes.

14 Welcome, sir.

MR. SIEMSEN: Good evening, Board Members. My name is Dan Siemsen. I'm a landscape architect with the firm of 2GHO.

firm of 2GHO.
 I have with me, also, one of the partners with
 2GHO, Emily O'Mahoney, as well as Christine Morrell, our
 architect of record, and Alec Dickerson, also with 2GHO,
 senior planner, and Ms. Annetta Jenkins with the Riviera

Beach CRA is the Director of Neighborhood Services.

23 She's our client.

22

Mr. Sirmons has done a fantastic job with the presentation. I'll -- you know, ours will mirror pretty

Page 16 between Avenue E and Wright Street, non-functioning

2 alley, dead-ends prior to 13th Street, so it will never

3 connect. It doesn't connect to anything and unimproved.

4 There is the presence of some underground utilities,

5 which will be relocated as part of the project.

Again, provides a CRA logical alternative for
 development, will provide a mechanism for pedestrians
 and vehicular traffic to traverse the site. By removing

9 the alleyway, it's going to connect everything and allow10 it to work, okay? Code required privilege fee has been

11 paid. We understand there is a condition of approval,

12 but that fee has actually already been paid. We have a

13 record of that and we provided that to staff, so that

14 should be resolved. City's abandonment of the subject

15 alley provides residential project, replaced

16 underutilized property, and development of an unimproved

17 non-maintained alley at no cost to the City of Riviera

18 Beach. So that will conclude the alley abandonment, and

19 we'll just go on to the plat.

20 BOARD MEMBER HARRIS CLARK: I have a question.

21 VICE-CHAIR WYLY: Go ahead

22 MR. SIEMSEN: Sure. Yes, ma'am?

23 BOARD MEMBER HARRIS CLARK: For the

4 abandonment, I don't know if you have in your

5 presentation, if you have to go back to Mr. Sirmons's

Page 17 Page 19 presentation. So the alleyway is coming straight down make sure I'm clear in my mind, that little section 2 the middle. that's in the middle right there on the proposed --3 MR. So -- oops. 9 BOARD MEMBER HARRIS CLARK: And the diagram of 9 Right there. Perfect, thank you. 10 the proposed was the proposed, and I don't know if you 10 So, in 1913, the laid out the lots along 11 can go back to it --11 Wright Street and Avenue E, as you can see here. Our 12 MR. SIEMSEN: Yeah, when we get to that point, 16 16 that's not 13th. 13th is all the way up here now. So 17 you can --17 the development of the area conflicts with what this 18 BOARD MEMBER HARRIS CLARK: Okay. plan is showing now, so we're resolving that as part of 19 MR. SIEMSEN: I think it will all come 19 this project. 20 together once you see the graphic. 20 BOARD MEMBER HARRIS CLARK: Right. But in 21 BOARD MEMBER HARRIS CLARK: Okay, good. All 21 1913, are you saying that the alley went lengthwise from 22 Boulevard all the way to the end of Wright Street? Is right, thank you. 22 23 MR. SIEMSEN: Yeah. The -- the plat, please, 23 that what I'm looking at? 24 24 Walter. Thank you. Ready to go? MR. SIEMSEN: Yeah, the -- it was --25 25 Villa L'onz is the name of the project. This BOARD MEMBER HARRIS CLARK: Okay. Page 18 Page 20 1 is the second component of the project, which is the MR. SIEMSEN: It was designated as that space, 1 replat. The owner requests approval of just shown as platted lines on a piece of paper. the replat, recorded Block 17 Riviera plat. It's a 4 BOARD MEMBER HARRIS CLARK: Right. So it's going that way. Can you go to the new plat, the new companion to the site plan application, as we mentioned, for 12 multifamily units, 11th Street. 6 6 proposed plat? 7 This is the 1913 plat, which was originally 7 MR. That's 16 16 and we'll -- I'll show you that a little bit more when 17 17 we get to the other aerial for the site plan, but the MR. It's not an alley, it's just a 21 the way through here. 22 BOARD MEMBER HARRIS CLARK: Okay. So it did 22 driveway, it's a one-way easement behind there that is 23 23 go all the way through there. private to this development so that they can access the 24 back of their lots. 24 MR. 2 I think it was the one you had prior to that. That one. Nope. You can -- yeah. That one, you got it. Rock and roll, all right.

5 So this is the third and final component of the project site plan for 12 multifamily units. We know 7 where the project is located and what it looks like today. 8

9 As Mr. Sirmons mentioned, it's a 0.51 acre 10 vacant site when it's all combined located on 11th 11 Street between Wright and Avenue E. Subject properties acquired by the City of Riviera Beach CRA and the 12 13 Riviera Beach Community Development Corporation for residential development. The site is underutilized,

14 15 lacking any viable development over the past several 16 years.

17 Here's the illustrated site plan. Two buildings identical to each other, three and two-story 18 19 units. There are six units in each building. The 20 buildings are essentially bookended on the east and west 21 side by two three-story units with the two-story units 22 in between.

23 The access drive, as you can see, is on the 24 north side. It's a one-way drive that enters off of 25 Wright Street and allows folks to access their garages

Page 27 from what's happening on the back side of the buildings where they enter their garages.

3 The street view, looking at the front of the buildings here. You see the three-story units on the 4 ends, and it mirrors that on the other side, and two-story units in between. 7

Looking the other way down the street, the 8 front of the buildings there, you see the parking along 9 11th Street.

10 So, as we go to the project, we've got to look 11 at a few things in terms of the Code. First and foremost, we look at the Comprehensive Plan, make sure

the project meets all the goals and objectives, as Mr. Sirmons mentioned. The project adds a residential

15 development further protecting the housing stock in the

16 City, which is a component of your Comp Plan. Supports

17 a less intensive use within the Avenue E corridor,

provides a harmonious transition between the Broadway

19 corridor and the adjacent residential neighborhoods.

20 Lower floor area ratio with a maximum of 2.0 allowed,

21 this project is actually a 0.91.

22 After looking at the Comp Plan, we look at the 23 land development regulations in your codes, also the 24 Riviera Beach CRA Master Plan. This is, as mentioned,

in the CRA. The proposed project accomplishes several

Page 26

1 for each unit. The three-story units have a two-car 2 garage, and the two-story units have a one- car garage.

The project also incorporates some improvements along 11th Street, not just the landscape improvements, but there are some parallel parking spaces that are improved along there. Those spaces shall also be utilized by residents and/or guests.

The land use, as Mr. Sirmons mentioned, is Downtown Mixed Use, zoning is Downtown General, 12 units, two and three-story, the one-way drive aisle in the back. There's 25 percent open space, provides for 26 parking spaces total, including the garage and the spaces along the street. There's 24 required for the project, so we're just slightly over- parked for those guests.

The architecture, beautiful architecture. The style is characterized as Dutch-Caribbean architecture, features a lively color palate with several pastel tones. Pertinent architecture elements include the gabled fronted building facades, incorporation of balconettes into the front and rear facades. Simple clean trims tie together the aesthetics of the facades.

23 Here's the bird's eye view of the front of the buildings along 11th Street, and here's the rear of the building. So they're -- that gives you a perspective

there. Aid in the revitalization of existing

neighborhood. Adds multifamily residential with an

Avenue E corridor. Improves pedestrian mobility with

the addition of five-foot concrete sidewalk. Right now,

10 I don't believe there's any sidewalks along Avenue E in

11 that location, and also combines that sidewalk to give

the residents of these units access to the rear of the

13 building. Sets the streetscape precedent for future

14 development along 11th Street. So all those

15 improvements on 11th Street with the parking on street

16 and the additional landscape, hoping to spur future

17 improvements along 11th Street.

18 Overall community benefits, it's a viable 19 infill development project that will accomplish the 20 following: Beautification of the existing environment; 21 uses existing resources for infrastructure. So, as part 22 of the project, they're going to utilize what's there 23 and connect into it.

24 Lastly, infill development that meets the 25 ideals of the City's Comprehensive Plan, CRA Master

10	VICE-CHAIR WYLY: I'd like to ask one	10	BOARD MEMBER HARRIS CLARK: Okay. It will be
11	question. I apologize if I if I missed it. When you	11	great that, behind all of that, if the CRA, the City
12	had the picture thank you, that's the picture I	12	owns that and we're going to have future development,
13	need. As far as the parking for the residents, it's	13	that will really be great, specifically because you've
14	going to be in the back with the garage area, of course.	14	got the cars that are coming in and out behind the
15	MR. SIEMSEN: Mm-hmm.	15	homes, and right now you've got the vacant lot.
16	VICE-CHAIR WYLY: But with the guests, how	16	I just want to make sure that there's some
17	many parking spots per guest I mean how many parking	17	sort of security factor back there for the protection of
18	spots per residents will be provided for the guests?	18	the residents up until that other side is developed, and
19	MR. SIEMSEN: Two, two per resident.	19	depending upon what that is, then there will be a lot of
20	VICE-CHAIR WYLY: So there will be enough	20	security, but for right now, with that open space, and E
21	space for that area, because I was trying to see where	21	Avenue is kind of, right now, a little gnarly street,
22	that was on the map, to where that parking will be right	22	and you know, I don't know if people can just, who don't
23	there directly in front?	23	live there, can just walk down that path. You know how
24	3 , ,	24	they take a shortcut?
25	VICE-CHAIR WYLY: Okay. And	25	MR. SIEMSEN: Right.
1	Page 30 MR. SIEMSEN: As part of the Downtown Code for	1	Page 32 BOARD MEMBER HARRIS CLARK: Sometimes they may

5	MR. SIEMSEN: to count towards required	5	MR. SIEMSEN: It's possible.
6	parking.	6	BOARD MEMBER HARRIS CLARK: So there's not
7	VICE-CHAIR WYLY: Right. Because I was	7	really any security parameters for behind there to stop
8	looking at this one and this is more where the tree line	8	non-residents from just utilizing the back of their spot
9	was closer to the house, and I think the other picture	9	to get to the other side to Wright Street?
10	was more to where the sidewalk was prior to the to	10	MR. SIEMSEN: So it's the CRA's intent to
11	the tree line.	11	have, first and foremost, have cameras there to aid in
12	MR. SIEMSEN: Yeah, there's there's the	12	the security of that, but they also, like you said, they

25

14 you can see the architecture. VICE-CHAIR WYLY: Right. 15 16 MR. SIEMSEN: But there's a -- there's a green strip between the parking and the sidewalk, and that 17 18 will be treelined as well. 19 VICE-CHAIR WYLY: Got it. Okay. Thank you. 20 Any other questions?

21 BOARD MEMBER HARRIS CLARK: Yeah, I just have, just aesthetic questions. With the parking right there 22 23 and the sidewalk, were you utilizing that plat to encompass the parking in the front and the driveway, or did you have to cut into 11th Street a little bit and

own that property, so they will be monitoring that area closely, and there's, yeah, and it's very -- going to be very well lit. So there's --16 BOARD MEMBER HARRIS CLARK: Oh, okay. 17 MR. SIEMSEN: There's a lot of lighting. So they're going to be following all the CPTED requirements 19 as recommended by the consultants. BOARD MEMBER HARRIS CLARK: Okay. And this 20 has nothing to do with the project here. Does anybody know that building that is next door, that warehouse, 23 and who actually owns it --24 MR. SIEMSEN: To the east?

BOARD MEMBER HARRIS CLARK: Yes, it's right

33 - 36

Page 33 Page 35 here. Who actually owns it now? And I'm just saying VICE-CHAIR WYLY: Yes. 2 this just could be gossip, but I heard that another 2 MR. SIRMONS: Yes, staff has received an marine company bought that land over there, that application for development for the lot to the east of warehouse, and they are going to put up more boats and this project, and I can direct you to those proposed other sort of boating repair shops over there. I don't plans for it after this meeting. know if that's true or not. I hope that's not the case 6 BOARD MEMBER HARRIS CLARK: Is that to the 7 because it would just so ruin that property, the answer to my question I was just asking. 8 MR. SIRMONS: Correct, yes, the plat to the 8 property on the other side, and everything that we're trying to do, just by who has that property over there, east of this project. There is an active development 10 if it's not going to be housing, and I'm just hearing 10 application for it. 11 BOARD MEMBER HARRIS CLARK: No, I just want to 11 gossip. 12 12 MR. SIEMSEN: Sure. hear about it after the meeting, I guess. BOARD MEMBER HARRIS CLARK: I don't know if 13 BOARD MEMBER GALLON: Yeah, we all are going 13 14 that's true or not. I was just wondering if anybody 14 to want to hear about that. 15 BOARD MEMBER HARRIS CLARK: Yes, thank you, 15 heard anything? you're right. 16 MR. SIEMSEN: I'm not aware. I'm not aware of 16 17 BOARD MEMBER BROWN: Yes, I was saying this is 17 any plans for that, that site. While we going through the process, we did look at the site, and it appeared to 18 a nice looking development, or will be. I just have a 18 be vacant. There was a -- there's a Google note on 19 couple of questions. 19 20 there for a restaurant, but I don't think that's what it 20 Are these going to be privately owned units? 21 21 really is, so I don't know what the future plans are. MR. SIEMSEN: Yes. 22 BOARD MEMBER HARRIS CLARK: Yeah, yeah, I was 22 BOARD MEMBER BROWN: Do you know how they're 23 just wondering. We just heard a marine company bought 23 going to transfer the ownership? 24 24 it and they wanted to put some more boats in, because, MR. SIEMSEN: It will be --25 25 obviously, there's no more space on the water side, so BOARD MEMBER BROWN: The CRA going to own them Page 34 Page 36 1 they're looking to traverse back where us residents are. in the beginning? 2 2 I was just wondering. MR. SIEMSEN: Yes, the CRA is going to develop 3 MR. SIEMSEN: There -- this is sort of --3 the project and they'll sell each individual unit. there's a transition area right here along Avenue E 4 BOARD MEMBER BROWN: So is there going to be where it goes from a more intensive use to less intense 5 condominium documents, or? 6 MR. SIEMSEN: They're currently in the process use. So this type of development, a multifamily type 7 development, high density, but it's a good transition 7 of creating those right now. between the less intensive residential uses. So 8 BOARD MEMBER BROWN: Okay. I have a couple hopefully that will -- they'll -- it will be a 9 questions on the plat, which I discussed with staff 10 harmonious transition there. 10 before. 11 And funny enough, or what we thought was funny 11 I noticed, on -- on the plat, there are some 12 is the properties to the south of this on 11th Street parcels, Lot A, the parcel, and you have the 17-foot 13 are zoned Industrial. access easement, but there's no dedication for those. BOARD MEMBER HARRIS CLARK: Which -- what side 14 14 MR. SIEMSEN: For the easement? 15 do you mean? 15 BOARD MEMBER BROWN: For -- for Lot A and for 16 MR. SIEMSEN: To the south, to the south. 16 the easement, yes. 17 17 They're single-family residences right now. MR. SIEMSEN: Okay. 18 BOARD MEMBER HARRIS CLARK: That way? 18 BOARD MEMBER BROWN: That needs to be 19 MR. SIEMSEN: This way. addressed. Also, I see (indiscernible) plans of 20 BOARD MEMBER HARRIS CLARK: Oh, this way? reservations for the HOA, which there is nothing, 21 MR. SIEMSEN: Yeah. They're zoned Industrial. 21 nothing dedicated to them. 22 22 So, it's residential, but nonetheless, it was just One more thing, I believe there -- there must 23 interesting the way the zoning map was created, but we 23 be sewer, electric, and other things there. 24 get off the subject, sorry. 24 MR. SIEMSEN: Sorry, say again? 25 MR. SIRMONS: Mr. Chair, if I may? 25 BOARD MEMBER BROWN: Sewer, electric, water.

Page 37 Page 39 MR. SIEMSEN: Oh ves. they will all be MR. SIEMSEN: Okav. 2 private. 2 BOARD MEMBER HARRIS CLARK: And behind it, it 3 BOARD MEMBER BROWN: Yes, but there must be was all torn down, and I just think what my concern is, 4 easements for those, too, right? is that the CRA has a broader plan to revitalize that 5 MR. SIEMSEN: No because they're all private. Wright Street, 11th Street, E Avenue, and the subsequent 6 BOARD MEMBER BROWN: Privately owned? streets around it, and again, I'm just hearing, and I 7 don't know if it's true, that the warehouse, and right MR. SIEMSEN: Privately owned, yes, sir. So 8 the connection point will be outside the property on 11th Street, right by these townhouses, on the 9 boundary and there won't be public connection on the opposite side where those homes have been bulldozed. inside of the property, so there's no easements that, again, another marine company purchased that and 11 required, is our understanding from the surveyor. the intent is to, now, to traverse over to 10th Street, 12 BOARD MEMBER BROWN: I'm sure I saw a sewer traverse over to 11th street, close to where these 13 easement running through the back. Was there a sewer townhomes are being built, close to where the existing 14 running through the back, the rear of the property? residents already live, and put up boat repair 15 MR. SIEMSEN: There's a -- yes, that would all 15 operations. 16 16 be private. There's a storm, storm line that runs in It just seems that, if that happens, it's 17 the back, as well as I think the -- hold on. 17 defeating the purpose of what the CRA and what the 18 MR. SIRMONS: Mr. Chair, if I may? residents want for this potential downtown area, 19 VICE-CHAIR WYLY: Yes, sir. 19 because, eventually, we've got a sign going up where our 20 MR. SIRMONS: I would like to clarify one 20 new City Hall is going to be right on the main street 21 thing that these are -- these are not fee simple 21 right there, and all of that was supposed to be --22 22 turned into a downtown area, and I just don't know townhome lots, so it is one lot with a condominium 23 association. So the lines feeding each individual 23 what's happening with that corner or even those lots up 24 the street, but I just hope that it's not going to condominium unit, the applicant is describing would be 25 private because it would be one main for the whole defeat the purpose of what the CRA is trying to do and Page 38 Page 40 property because it's a condominium more so than a what the residents want for that area. 2 2 MR. SIEMSEN: Right. MR. SIEMSEN: Fee simple. 3 MR. SIRMONS: -- fee simple townhome project. 3 BOARD MEMBER HARRIS CLARK: And I don't know So that is one point I just wanted to make sure was that, when the CRA takes a look at building the condominiums, when they got the empty lots and they're 5 clear that may not have come out on the staff 6 presentation. looking at proposed development for that, if they kind 7 VICE-CHAIR WYLY: Noted. of hear rumbles of what's going to happen around and 8 BOARD MEMBER BROWN: I guess that's it, as they're taking in consideration of, you know, am I going 9 long as they take care of the HOA. to really find buyers for the townhouse or condominiums, am I going to find buyers for the future development of 10 MR. SIEMSEN: Yes. Yeah, as part -- as Mr. Sirmons mentioned, as one of the conditions of approval 11 those empty lands. 11 12 is that they submit the condominium association 12 Even the residents who live over there, I 13 documents. So any additions to the plat prior to 13 think they would have a concern about what happens to 14 their property value if it doesn't coincide with the recordation would have to be added to that. 15 BOARD MEMBER HARRIS CLARK: May I ask a 15 vision of what the CRA has planned. 16 VICE-CHAIR WYLY: Agreed. Agreed. broader question? The broader question, I don't know if 17 BOARD MEMBER HARRIS CLARK: And I'm hearing 17 this is the CRA can answer this or if Mr. Sirmons can 18 answer it 18 rumbles, I don't know if it's true or not. We want the 19 19 CRA to do what they are doing, not only in that area but We have these condominiums, townhome other areas, and we just have people who own those lots, 20 condominiums going up. Then across the street is that 21 warehouse building, and it sounds like there is an and their intentions don't mesh with the City, and it 22 doesn't mesh with the residents, and it doesn't mesh 22 applicant that wants to do something with that, and 23 23 with the CRA. certainly want to hear about that. Then, further up the

street, across from where the warehouse is, there were

small, tiny apartments there that were all torn down.

24

BOARD MEMBER HARRIS CLARK: And that's just a

Page 41

1 broad comment or statement because, you know, the goal

- 2 is to infill. We've got these beautiful houses that the
- CRA did almost eight years ago on Old 13th Street, and
- 4 it just really changed the dynamic of that area to put
- those lovely houses there and to start to change the
- community, but we know that there wasn't going to be any
- commercial development over there. It was the CRA doing 7
- 8 the housing infill.
- 9 MR. SIEMSEN: Right.
- 10 BOARD MEMBER GALLON: Chair?
- VICE-CHAIR WYLY: Yes, sir? 11
- 12 BOARD MEMBER GALLON: Can we take that on our
- 13 Planning and Zoning Board comments and move on with the
- 14 applicant?
- 15 VICE-CHAIR WYLY: So, public comments?
- 16 MR. SIEMSEN: Thank you for your comments.
- 17 VICE-CHAIR WYLY: Thank you, sir.
- 18 MS. DAVIDSON: Mr. Chair, we have Ms. Mary
- 19 Bram who would like to speak on Item A.
- 20 MARY BRAM: I apologize for spraying,
- 21 spraying, okay? We take care of ourselves. Happy New
- 22 Year to everyone.
- 23 VICE-CHAIR WYLY: Happy New Year.
- 24 MARY BRAM: First of all, I would like to --
- 25 can you hear me?

10

20

Page 42

- 1 VICE-CHAIR WYLY: Pull the mic down.
- 2 MARY BRAM: Can you hear me now?
- 3 VICE-CHAIR WYLY: There we go.
- 4 MARY BRAM: Can you hear me? Happy New Year 5 to everyone.
- 6 Okay. First of all, I would like for somebody
- 7 to pronounce this new development name, Villa L'onz.
- 8 BOARD MEMBER HARRIS CLARK: Villa L'onz.
- 9 MARY BRAM: Just a question. Okay. Has the
- -- I see, back in 2021, the owner, Ms. Mahoney here, she
- sold it off to the CRA, these two properties here. It's 11
- 12 designated all the way back up there.
- 13 My question -- talk in the mic, she say talk
- 14 in the mic, Ms. Bram. Okay.
- 15 My question is, because I do have -- I do have
- some questions, and I really would like for them to be 16
- 17 attainable to answering them, has a price been set for
- 18 these affordable houses? That's one thing.
- 19 Are they really going to be affordable, so
- that peoples can, the ones that can move out and desire 21 to move back in, because they would be controlled under
- 22 the CRA. I think that has already been established.
- 23 That is one thing.
- 24 The underground utilities, I would like for
- someone to show me on this plat here, where are the

Page 43 underground utilities located at up in that area there.

- and has it been designated where would they be put when
- that development comes in there? That's critical.
- That, to me, that's critical. Okay.

5 Another thing that I picked up on, see, bonds

are used for various things, and this is a two-year

bonding for the landscape. Now, that's what I heard

- there, also. Who's going to pay for that? Who would be
- 9 responsible for that? Will the contractors, or will
- this be on the CRA? So those are some things there.

11 And I like the idea where you said by the

- streetscape, that you would lead future development. I
- 13 always say that we do not build for what we see right
- now, we build out for the future. So -- so that was a
- good gesture there, because on this part here that's
- 16 going to intercede here, we do want that built out, so.
- 17 And the construction, will we be on target?
- We must not -- we must stop planning to do these things
- 19 here and not be on target.
- 20 Well, the mic was just messing up, so.
 - We mustn't -- we must proceed within that, I
- 22 think it was 18 months, somebody correct me if I'm
- 23 wrong, but from what I heard, it was 18 months. Will we
- 24 be on target to do that? Because we, as a city, we say
- that we're going to do these things here and they takes
- - Page 44

a lot. So we, as residents, we want to see these things

- on target. This is 2023, and it is a very uneven number

11

12

24

21

So all the elements that I would like to have

- addressed is, you know, like the back end. They already
- said it would be 26 parking. No, it is not my desire to
- see all along Broadway here, it's all boats, boats,
- boats, boats, boats, boats, boats. We are more
- than this. We have the most jewel now here in our city
- over on Broadway there, and we must stop this type of 10
 - building here.
 - We have to do this in order to build up the
- 13 City here to where we say, everybody say that it is this
- destination. How can we be a destination when boats and
- 15 stuff, warehouses and stuff going continuously to infuse
- us. So I want this Board here to address the bonding.
- 17 I want this Board here to address the time frame, would
- we be on target here for 18 months, and what we consider
- 19 to be as affordable, what we consider to be as
- 20 affordable, because I would like to have those that can
- 21 come back into this city to live. Thank you.
- 22 VICE-CHAIR WYLY: Thank you, ma'am. Would --
- 23 Mr. Sirmons, do we have any answers to the questions
 - that Mrs. Bram had, or our developer, would you have any questions? Because I see you copying down some notes.

Page 47

Page 48

PLANNING AND ZONING BOARD MEETING Page 45 So do you have any answers to the questions? rates have just almost gone off the chart. 2 MR. SIRMONS: For the staff side, I know where 2 the utilities are. That was one of the questions that is on -- that was reviewed by our Utility District staff on where they would be, and he has satisfied -- or they have satisfied his comments in regards to where the 7 quite a bit. 7 utilities will be and making sure that they're protected 8 from any development. So, with his approval, we do 9 believe everything is intact with utilities. 10 The price of the homes, I would have to defer 11 to the applicant on that question. 12 VICE-CHAIR WYLY: Okay. That was the next 12 13 question. 14 MS. JENKINS: Good evening. 15 VICE-CHAIR WYLY: Good evening, ma'am. 16 MS. JENKINS: Annetta Jenkins, Director of 17 Neighborhood Services for the CRA, and I also represent 17 18 18 the CDC as the executive director. 19 19 If you've been following this project in the 20 City, and for those who are listening, you know that 20 21 it's intended to be an affordable/workforce project, and 21 22 22 that means that there will be a mix of incomes. 23 We wanted to make sure that this is stable 23 24 housing, number one; that we have residents. We don't 25 want to create a project where investors will buy the says, before a CO is issued. So --Page 46 1 BOARD MEMBER GALLON: Will that be --1 units and then use them for rentals, short- term rentals 2 or long-term rentals. The requirement, and there will 3 be a deed restriction, is that these be occupied as 3

Some comfort we have is that we're starting to see things to slow down, costs coming down a little bit, prices starting to come down a little bit, and by the time we're ready, we get closer to bidding out this project, we're hoping that things will have come down The CRA, when we initially started this project, provided close to a million dollars to help assist with development. We'll be seeking other dollars to bring into this project that will help to create some additional affordability. Sorry I can't give a better answer to -- than that, but our whole goal is to make something that our residents can be proud of, something that they can participate in, and something that they will be able to afford. It is meant as a workforce/affordable project, and hopefully that answers Ms. Bram's question. VICE-CHAIR WYLY: Great job, Ms. Jenkins. BOARD MEMBER GALLON: What about the bond? MS. JENKINS: The bond? The bond will be considered part of the development cost, and as developers, you know, will incur that and make -- of course it will have to be paid before, as the condition

homesteads, as permanents residences. 5 The affordability is a question that you have 6 to determine what is affordable, what is workforce, and 7 our city is actually going through a discussion being led by Development Services Department defining what we 9 mean in this city by "affordable," which generally is 80

percent and blow. Moderate is 80 to 100, maybe 120, and 10 11 then closer to market is our higher incomes. So, to 12 simplify it a little bit, we want to make sure that 13 there are some units within these 12 units, this is a 14 relatively small project, where people who perhaps have 15 incomes closer to 70, 80,000, depending on how many people are in the household, could afford some of the 16 17 units.

The three-story units are being proposed as market rate units. They are three stories, two-car garage, and we didn't talk about the square footage, but all of the units are relatively nice size. We don't 22 have prices right now, we're too far out to get firm estimates. I don't have to tell anybody in the room, but construction costs have been through the roof, prices of homes have been through the roof, interest

MS. JENKINS: That will be included in the financing stack for the project. 4 BOARD MEMBER HARRIS CLARK: Ms. Jenkins, a short question. You mentioned homestead. It will be homestead, but is there the propensity that -- to get the homestead, you have to be in the house to get the homestead credit. So does that eliminate the propensity of someone buying a unit and knowing it's right across the street from the Margaritaville cruise ship and they start to rent that unit out at some point in time as an 12 Airbnb? MS. JENKINS: It's a -- it's a deed restricted

13 property. We will have condominium or call it homeowner association, but condominium documents, and it would be in violation of that, and people will be subject to 17 whatever the consequences of that are. 18 BOARD MEMBER HARRIS CLARK: Oh good, thanks. 19 VICE-CHAIR WYLY: Thank you. Any other 20 questions by the Board? 21 Correspondence, Planning and Zoning Board 22 comments, so I guess those were the comments. 23 MS. DAVIDSON: Mr. Chair? 24 VICE-CHAIR WYLY: Yes, ma'am? 25 MS. City more. 13 BOARD MEMBER HARRIS CLARK: Oh, and Chair, I 13 I just want to encourage any of our residents 14 and guests who are looking that Riviera Beach, our city, 14 have one other question. 15 When we're in this facility here and we are 15 is one municipality that puts on a lot of free events and activities for our community, and we are not 16 giving our Pledge of Allegiance, and I think everybody 17 attending them, and pretty soon, if we keep our 17 kind of turned around this way, that way, looking for the flag, Walter, is there a possibility that we could 18 attendance low, we're simply just not going to have put a digital flag up, that you can get a JPEG of our 19 anything served up to us because we're not patronizing 20 the great events and activities that our staff, whether 20 United States flag, so that now we know it's up there 21 it's the City, whether it's Park and Recreation, the and we're turning that way. Is that a possibility? 22 22 UNIDENTIFIED SPEAKER: Actually, it should CRA, that they're putting on, they are just phenomenal. 23 and I am really encouraging our residents to really come 23 have been up there (indiscernible). BOARD MEMBER HARRIS CLARK: And it may not be 24 24 out and support the City of Riviera Beach. 25 If you're not supporting what we do free, what sometimes, but if we can compensate with a digital? Page 58 Page 60 1 makes developers think you're going to support paid 1 Yeah. 2 events? Let's start with the free events. They're 2 VICE-CHAIR WYLY: That's a great idea. quality, they're magnificent, they're fun, they're 3 BOARD MEMBER GALLON: Chair? family-oriented, and as far as I'm concerned, they're 4 VICE-CHAIR WYLY: Yes, sir. 5 the best around. From Lake Park, all the way up to BOARD MEMBER GALLON: Mr. Sirmons, I still have issues with the zoning areas. I know that there's Jupiter, nobody does it like the City of Riviera Beach. 7 Thank you, Chair. things being worked on. Just like I just found that out 8 BOARD MEMBER GALLON: Chair? tonight about the industrial area right down the street 9 VICE-CHAIR WYLY: Yes, sir. here where there are homes. This stuff has to be fixed. 10 BOARD MEMBER GALLON: I think one of our main It has to be fixed. This is getting ridiculous, and now 10 issues that we have with these events that we put on is we're putting in townhomes and then they're going to 11 12 that the residents doesn't know. A lot of people don't 12 have a boatyard down the street. 13 do Facebook, and a lot of people don't drive, so they 13 Come on, when is this City going to -- going don't see the signs. We have to do a better -- there 14 to wake up? We cannot have a boatyard right next to 14 15 has to be a better way that the City can communicate to where we're putting up high-rises. So I hope staff is 16 the residents that they're having these activities. really thinking about the way they're letting these 17 There has to be. 17 people just come here and put stuff up wherever they 18 I don't know if you can send out a flyer once 18 want it. Page 61

- Saturday morning, spend approximately four hours there.
- 2 They're getting provided breakfast by the City of
- Riviera Beach, and they're getting provided by the City
- of Riviera Beach, and we are teaching these kids how to
- 5 pass the English, the science, and the math portion of
- the ACT.
- 7 The problem that we have is that the kids in
- 8 our -- in our community are graduating from high school,
- 9 but the grades and the scores they're receiving on the
- test are putting them in the position to where they have
- 11 to go to either a community college or they have to go
- 12 to a college not of their choice, to where they're
- 13 accepted.
- 14 But what we're doing now is that, from the
- 15 past couple months, we have kids coming in now who are
- 16 scoring very high scores on the ACT score, the composite
- 17 score, and are now able to get into D-1 colleges, and
- it's especially beneficial for the athletes, for 18
- 19 baseball, basketball, football, soccer, any sport that
- 20 they attend to now they can get into these -- these
- 21 great colleges, or any colleges. Any education is
- 22 really good, depending on -- depending on the kid, but
- 23 it's a great opportunity for a kid to be able to be
- 24 given the opportunity to maximize their opportunity for
- 25 an education and opportunity to be seen on a
- 1 professional level at that point.
- 2 Any people inside the City of Riviera Beach,
- 3 the principal at Dwyer Middle School -- excuse me, Dwyer
- 4 High School, has actually set up a program to where the
- kids who are in Riviera Beach are able to come to the
- 6 Riviera Beach Library and attend this ACT program free
- 7 of charge. It's a free program, and they're allowed to
- go there, and they're going to have all the expertise
- 9 from myself, teaching math, Mr. Sean Allen (phonetic),
- and Ms. Marcia Kelley teaching, teaching reading, and 10
- 11 amongst other people there that will be there to help
- 12 out with that program.
- 13 This is something that we plan on doing to not
- 14 only help out the City of Riviera Beach, but the City of
- 15 West Palm Beach, and also Palm Beach Gardens, to make -
- and again, I think the most important thing about, even
- 17 though these cities are involved, I think the best thing
- 18 is to get these kids on the right level and be able to
- 19 have them see that there is something better out there
- 20 for them, instead of just settling for the things that
- 21 life provides for them, and give them this proper
- 22 education. So please, if you get opportunity.
- 23 There's also going to be a second session, the
- kids can come there now, don't worry about signing up
- for it now, just have the kids there at 8:00 o'clock at

- Page 63 the Riviera Beach Library Saturday, and then we'll get
- them set up for the test, and then, after that, once --
- I think the test is on the 9th, I forgot what Saturday
- that is, in February, I think it's before the Super
- Bowl, then right after that, two weeks later, we start
- up again with another program with -- the ACT program
- with the kids, also, for the next test day also.
- 8 So we're trying to keep these kids busy and
- 9 get them on the right mindset to where they become nice,
- productive citizens, hopefully in the City of Riviera
- 11 Beach. Thank you. And I think that is it.
- 12 MR. SIRMONS: Mr. Chair, a couple --
- 13 VICE-CHAIR WYLY: Yes, sir?
- 14 MR. SIRMONS: A couple comments from staff.
- 15 The next Planning and Zoning Board meeting will be
- 16 February 9th. We will not be meeting on January 26th.
 - And one follow-up to our last Planning and
- Zoning Board meeting, where we had a workshop on the
- 19 Comprehensive Plan, we are in regular communication with
- 20 our consulting firm regarding that, and we will be
- 21 kicking off one-on-one meetings with each of you and the
